

FINE PHRASES TO BE INVOKED TODAY AT NAVAL PARLEY

Hope Diplomatic Verbiage
May Save Conference:
At Standstill Now

London, March 20.—(UP)—Diplomatic phrases—the use of cleverly chosen words disguising the real meaning of naval parity—may be the solution to the Franco-Italian deadlock which has threatened a five-power agreement on curtailment of armaments.

The British delegates, the United Press learns, are seeking some formula in which any suggestion that France admits Italy's right to equality, or Italy officially consents to French superiority, will be scrupulously avoided.

Whether such a vague agreement would be acceptable to either nation remains a question, but it has been stated repeatedly in reliable French quarters that while France is unwilling to "admit" Italian parity with France, she has never actually considered she had the right to "deny" such equality.

It is this problem of verbiage that today occupied the attention of the forces of mediation at the London conference.

Until the last chance for a five-power agreement is gone, the delegates will leave no stone unturned to work out a solution of the problems now vexing the conference. Failing such an agreement, they will turn their attention to the possibility of a three-cornered pact, in which Italy and France may adhere when they choose.

BRIAND LEAVES LONDON.

London, March 20.—(AP)—Aristide Briand, head of the French delegation to the five power naval conference, left London this forenoon for Paris. His trip was understood to be for the purpose of consulting Premier Tardieu about the conference. He said he expected to return to England with M. Tardieu at the weekend.

M. Briand appeared to be in a cheerful frame of mind. "I don't see much use in sitting around a hotel looking out of a window at the weather even if it is fine," he remarked smilingly. "I shall come back as soon as there is some work for me to do." He declined any comment on the conference prospects.

Work of the American delegation was almost completely suspended this morning. There was nothing further to be done at the moment on the Franco-Italian stalemate and conversations with the Japanese were suspended pending word from Tokyo whether the government accepts the tentative agreement which the American and Japanese delegations have worked out here.

Americans Rest.

Secretary and Mrs. Stimson went riding in the vicinity of Windsor. Ambassador Davies, Secretary Adams, Ambassador Gibson and Senator Robinson gathered in Secretary Adams' office to tell stories and swap yarns. Loud and frequent laughter could be heard in the halls.

Ambassador Morrow remained in his room with a slight cold. The conference advisers and many of the naval officers who are here planned trips into the country. An American spokesman smilingly summed up the situation for The Associated Press:

"Anyone who wants to today can walk up and down the corridors of the Ritz beating drums as loud as they desire."

It was understood in conference circles that both the British and Americans have prepared suggestions for possible solution of the Franco-Italian dispute. These may be contingent upon getting the two contestants to face each other across the conference table.

Money Truck Stolen In Youngstown, O.

Youngstown, O., March 20.—(UP)—A "money truck" of the Railway Express Agency was stolen shortly before noon today from in front of the company's loading station here.

The driver had parked the car there for a few minutes while he went into the office. When he came out the truck was gone.

Bystanders said they saw one man get into the truck and drive hastily away down the crowded street.

Company officials said the truck was loaded but were unable to place a value on it. The money truck was the one used by the agency to meet trains.

Railway Express Agency officials said they estimated less than \$500 was carried in the truck along with merchandise worth about \$500 more.

Fatally Injured By Torch Explosion

Whitehall, Ill., March 20.—(AP)—William G. Mouldon, 45, automobile sales room here, was probably fatally injured at 8:15 o'clock this morning when a carbide welding lamp he was using exploded in his hand. Physicians called to attend him declared he had one chance in a thousand to recover.

The lamp exploded with such force that it blew part of Mr. Mouldon's face away and went clear through the roof of the garage and landed three hundred feet away. It set Mouldon's clothing afire, adding to his injury.

He has a wife and six children.

LAST ARGUMENTS MADE IN TRIAL OF E. L. DOHENY

Jury In Bribery Case
Expected To Get It
Sometime Friday

Washington, March 20.—(UP)—Edward L. Doheny was described diversely today as a "scheming giver of bribes" and as a "patriot whose innocent loan to an old friend has been made the subject of unjust suspicion" in final arguments before the jury in the California millionaire's bribery trial.

Frank J. Hogan, brilliant defense attorney, began his argument after a speech of more than two hours in which Albee Pomerene, former Senator from Ohio, had assailed the aged defendant with biting sarcasm.

The jury is not expected to begin its deliberations until tomorrow. Doheny is charged with giving former Secretary of Interior Albert B. Fall a \$100,000 bribe in return for government oil leases.

"I thought," began Hogan, "that I had some slight familiarity with this case, but I find I know nothing about the matter that have been told you by former Senator Pomerene."

"I undertake as my duty to show you that nothing has ever been so distorted as the case he outlined. 'If this case is to be won by sneering at men who served in submarine-infested seas, then I must admit defeat. For I will not sneer or whine. I will present to you the facts of the case, logically, not jumping here and there, back and forth, and only from documents that His Honor has ruled may be used.'"

Hogan then explained to the jury that the law demands acquittal unless guilt is proved beyond a reasonable doubt.

Parrots Discharged from American Navy

Washington, March 20.—(AP)—A drastic order that all parrots be honorably discharged from the United States Navy has been handed down by Acting Secretary Jahnke.

Since the days when the Buccaneers roared the Spanish Main, parrots and their language, both good and bad, have helped keep the mariner's dream of settling down inland and growing a garden from becoming poignant. Lately, however, the birds have acquired a reputation as carriers of petticoats or parrot's fever. Secretary Jahnke's order was designed to prevent the spread of the disease.

Parrots on ships in port may be given to one of the girls that the sailors are supposed to have in every harbor, or to anyone else. But parrots on ships at sea are to walk the equivalent of the time honored and fatal plank.

Bank Closes Because Of Low Cash Reserve

Springfield, Ill., Mar. 20.—(AP)—Owing to a low cash reserve, the Smithshire State Bank, Smithshire, Warren county, was closed this morning by its officers.

State Auditor Oscar Nelson was requested by Cashier Neil F. Norman to send examiners to inspect the condition of the bank and make recommendations for strengthening it.

At the last examination the bank had deposits of \$200,000, capital of \$35,000 and a surplus of \$15,000.

MOBILIZATION OF CITIZENRY BACK OF DRY LAW PLAN

Man Who Inaugurated Enforcement Suggests
New Procedure

By PAUL R. MALLON

United Press Staff Correspondent
Washington, March 20.—(UP)—A plan to mobilize the citizenry of the nation actively for law enforcement was recommended to the House Judiciary committee today by Daniel C. Roper, who inaugurated national prohibition law enforcement as Internal Revenue Commissioner in 1919.

He urged that President Hoover call a conference of Governors of states and organize through them Citizens Law Observance Councils similar to the war-time Councils of Defense. Attorney General Mitchell, he said, should call together all enforcement officers, and even federal judges, to work out methods of speedier prosecution.

Roper said he was convinced the law could be enforced by this plan of an appeal to citizens of the country, but if people would not obey the law after that appeal then the law should be repealed.

Roper was asked whether he thought President Hoover is trying to enforce the law, he replied:

"By statement, yes. By procedure, I do not know."

Condemns Canadian Plan

Roper urged mobilization of the citizenry of the nation after he had condemned the Canadian dispensary system, advocated by some wets, as offering no solution for the prohibition problem, basing his conclusions on "failure" of the system in South Carolina, his native state.

"How are you going to remedy the situation in New York and other wet states that way?" asked Rep. Bachman, Dem., W. Va.

"I would try to persuade them to observe the law through the governors of their states. If we could not get the people to obey the law that way then it ought to be repealed."

Roper said that when he selected prohibition administrators he required that they be in loyal sympathy with the law.

Roper was followed by Martha Bensley Bure of the National Federation of Settlements, who told of improved conditions in the Rocky Mountain and Pacific states, and said that the drink problem no longer is considered serious by social workers in the area from Sioux Falls, S. D., to the Pacific coast.

A telegram was read from Fielding H. "Hurly" Yost, famous Michigan football coach, expressing the opinion that college students are not drinking as much as in pre-prohibition days.

ITALY IMPROVING

Rome, Mar. 20.—(UP)—The Fascist government is rapidly introducing a more rigorous control of liquor, and without a suggestion of prohibition, has reduced the number of drinking establishments by 40,000 during the past eight years. Leader Arpinati, Under Secretary of the Interior, revealed in his report to the Chamber of Deputies.

The police policy, directed by Arpinati's department, is to refuse annual renewal of licenses where there appear to be too many wine-shops in the same district.

Drunkennes, it is pointed out, is not common in Italy, although wine is customarily used with meals. What drunkenness occurs is generally in the poorer quarters of industrial cities. The only restrictions on alcohol are that spirits may not be sold on Sundays or holidays.

The statistics of crime in Italy show a satisfactory falling off.

Harry Waterbury Of Polo Died Suddenly

(Telegraph Special Service)

Polo, March 20.—Harry Waterbury of this city passed away quite suddenly at his home this morning about 3:30, death being due to a heart attack resulting from high blood pressure. Mrs. Waterbury was aroused at the early morning hour by the heavy breathing of her husband. She went to the telephone to summon a physician and upon returning, found that he had expired.

Mr. Waterbury was born near Polo, January 10, 1861 and was united in marriage to Miss Anna Hendrix, January 21, 1885. Besides his wife, he is survived by one son, Fred Waterbury of Polo; eight daughters.

Mrs. Winifred Ferris of Chadwick, Mrs. Mae Travis of Polo, Mrs. Edith Stull of Polo, Mrs. Abbie Stover of Polo, Mrs. Nellie Obendorf of Millville, Mrs. Jessie Livingston of Polo, Mrs. Grace Bugland of Brookville, sixteen grandchildren and one sister, Mrs. Mary Short of Westington Springs, S. D. Funeral arrangements have not been completed and will be announced later.

One Killed And Two Injured In Accident

Chicago, March 20.—(AP)—One man was killed and two seriously injured when the automobile driven by Everett Anderson of Waukegan sideswiped a truck near Dearfield today and rolled over in a ditch. The men were on their way to work in Cicero.

The dead man was John Kosakowski, 45, North Chicago.

Anderson and William Jakaitis, 45, North Chicago, were injured. Two others were only slightly hurt.

INCOME TAXES PAID MARCH 15 EXCEEDED 1929

Showed Total For The
Month: Near Three-
Fifths Of Budget

Washington, March 20.—(AP)—Income tax receipts from the March 15 collection as shown by the Treasury today totalled \$314,200,558, exceeding by more than \$40,000,000 collections for the same date last year.

This sum was the total for the month of March as shown in the Treasury statement for March 18, made public today.

It represented the total amount turned in at the close of business of the preceding day.

Although yesterday's statement showed receipts running about \$10,000,000 behind those for the same period in the preceding year the receipt of \$214,534,548 added to the Treasury balance on March 18 more than offset this shortage. The collection on the same day in 1929 amounted to only about \$161,000,000.

Receipts so far accounted for totalled very near three-fifths of the budget expectations for the first quarterly income tax collection.

Treasury officials, however, still held that this was no definite indication that the expectation would be met.

BROOKHART RODE AGAINST HORDE OF WETS IN NEW YORK

A Hostile Crowd Hooted
And Heckled Him In
Darrow Debate

BY H. ALLEN SMITH.

United Press Staff Correspondent
New York, March 20.—(UP)—Senator Smith W. Brookhart of Iowa rode full tilt against the wet hordes of Manhattan last night.

Before a hostile crowd of about 2,000 persons at the Mecca Temple, the Iowa Senator stood his ground and declared New York and the rest of the country will soon see the day when a drink of rum cannot be found.

What with the caustic, biting sarcasm of his debating opponent Clarence Darrow, and the rude, unquenchable yelping of a hundred hecklers, Senator Brookhart's voice was all but lost in the hubbub.

Darrow turned his guns on the Methodist Board of Temperance and Public Morals, on the Anti-Saloon League, on the W. C. T. U., on Congress and even on the White House.

Called Hoover Experiment.
He called Hoover "that noble experiment who presides as President of the United States."

He said that "the Methodist prohibitionists have worried themselves as much about the Pope coming to America and establishing himself here that they have beaten him to it."

"They've set themselves up across the street from the nation's Capitol, where they can argue with the weak-kneed Senators and weak-minded Congressmen."

"These foul prohibitionists," Darrow shouted, "have single-track noses. They can smell rum but they can't smell oil, as they showed in the Teapot Dome case. And they have single-track brains—if any."

The Senator smiled in the face of his hooting audience, and hooted back at them.

"You birds in the gallery up there," he shouted above the tumult, "are living examples of the cause you represent. It's apparent to me, after hearing you tonight, that New York doesn't put everybody in jail that should be behind bars."

Brookhart charged that "the only hypocrite and bigot in the whole business is none other than Andrew W. Mellon; he's the man in charge of enforcement and he's not in favor of enforcement."

Chicago, March 20.—(AP)—Where, oh where, has Al Capone gone?

Chicago police who have guarded the gang leader's usual haunts since his release Monday from a Philadelphia penitentiary say he has not appeared.

Evansport scoffs at the idea that he landed there in a yacht.

Indiana Harbor reports none of the tire tracks on Main street were made by a Capone car.

The mayor of Niles Center flatly denies that Capone dropped a cigar band on that city from his chartered airplane.

It's all very mysterious.

Former Resident Of Dixon Dead In Mich.

Dixon friends were grieved this morning to receive messages announcing the death of Mrs. J. C. Jocelyn at the home of her daughter, Mrs. Clarence Lee in Cold Water, Michigan. Mrs. Jocelyn, who had been in failing health for some time, was a woman of lovely personality.

The Jocelyn family at one time resided in Dixon where they had many friends. The message gave no details of Mrs. Jocelyn's death. Further notice of funeral arrangements is expected to reach Dixon soon.

Terse Items of News Gathered in Dixon During Day

IN POLICE COURT

Harvey Banno of this city paid a fine of \$10 and costs when arraigned before Justice Grover W. Gehant in police court this morning on a charge of intoxication.

COMMUNITY BUILDERS

An important special meeting of the Dixon Community Builders, which all independent merchants and their employees are urged to attend, will be held at the Elks Club tomorrow evening at 7:30 o'clock.

SEEK STOLEN HARNESS

Sam Geary, city marshal of Polo, was in Dixon this morning conferring with Chief J. D. Van Bibber. The Polo city marshal was attempting to locate a set of harness which was stolen in that city last evening and was thought to have been brought to Dixon and sold.

COUPE TURNED OVER

A Chevrolet coupe driven by a salesman from Minneapolis, Minn., was struck and turned over on its side at Peoria avenue and Second street last evening about 8:45. The driver escaped uninjured. Harold Ryan of this city, driving north on Peoria avenue struck the rear of the salesman's car, turning it over and both machines were slightly damaged.

WILL DEBATE DEKALB

The Dixon and DeKalb high school debating teams will meet in a debate at the local high school gymnasium at 8 o'clock Monday evening, the Dixon team, the personnel of which will be announced later, to take the negative side of the question: "Resolved, That the Chain Store System is Opposed to the Best American Business Interests." The public is welcome to attend and hear this debate.

SUFFERED BROKEN HIP

Miss Susan Brown, who was the housekeeper for the late Rev. Father M. Foley, at the parsonage to St. Patrick's Catholic church for the past thirty-seven years, had the misfortune to take a misstep yesterday, and fell, fracturing her right hip. She was taken to the Dixon hospital, where she has been given every attention and today is resting more comfortably. Her niece, Miss Helen Farrell of Chicago, arrived today to be with her aunt.

ELECTRIFICATION OF FARMS THEME OF DISCUSSIONS

Is Just Beginning To
Pay Its Way In
The Midwest

Springfield, Ill., March 20.—(AP)—Farm electrification throughout Illinois would give the farmer's wife an eight hour day, Mrs. Henry J. Mies of Pontiac, president of the Illinois Home Bureau Federation, told the combined utilities conventions here today.

She quoted University of Illinois data to show that farm women today work on an average of nine hours a day. Electricity, she said, would shorten it an hour.

J. Paul Clayton of Springfield, vice-president of the Central Illinois Public Service Company, told the conference that farm electrification in Illinois has reached the point where it is turning from a pioneering experiment to sound business. "Up to the present," he said, "rural service has not paid its way, except where large amounts of power have been used."

"The average size of Illinois farms is 141 acres, and possibly three and a half miles of electric wire. Under these conditions an investment of \$450 per farm is required to bring the service to each rural resident. Tenant farming is the greatest obstacle in the way of rural utility development."

Lee J. Quasey, Director of Transportation of the Illinois Agriculture Association, said complete electrification of 225,000 farms in Illinois would involve an expenditure of \$310,000,000 by power companies and farmers.

He suggested that 4,000 farms be electrified annually, at a cost of \$1,600,000 for rural power lines, \$66,000 to wire farm buildings and \$4,000,000 for the purchase of electric farm equipment.

Musical Whistles On Southern Ry. Engines

Memphis, Tenn., March 20.—(UP)—Southern Railway engines that go steaming through Dixie no longer will rend the stillness of night with shrill and untuneful blasts from steam whistles.

Instead they will be equipped with calliope whistles on which any engineer with a fair degree of musical talent can play "Dixie," "Casey Jones" or other tunes.

The change to the whistles is to be made, officials of the road said, to avoid disturbing the sleep of persons in villages and towns. Engineers have been given orders to play the calliope when approaching street crossings.

ONE DEAD, EIGHT INJURED IN FIRE, KNOXVILLE, TENN.

Business Buildings Are
Burned: Big Loss
In Oil Blaze

Knoxville, Tenn., March 20.—(AP)—One man was burned to death, eight persons were injured and six were missing in a fire early today that destroyed four buildings in the business district and badly damaged another.

All of the injured and the missing were residents in late Arcade Building on Union Street, a two story structure in which the fire originated.

Carl Merchel, 59, the man burned to death, lived across the street from the Arcade Building, but had gone over to investigate the fire. A fireman found his body at the top of the stairs in the building.

Several hours after the spread of the flames had been checked, firemen still were unable to enter the ruins of the Arcade Building to search for bodies.

None of the injured was burned but all suffered from bruises and cuts incurred in their flight from the blazing structure.

\$2,000,000 OIL FIRE

Philadelphia, March 20.—(AP)—Official estimates today placed the loss in the fire which swept the Gulf Refining Company's reservation at Girard Point last night in excess of \$2,000,000.

The tank steamer Hagan was badly damaged and a pier, 15 tank cars and a big warehouse filled with oil vats, tanks and drums were destroyed.

Most of the Hagan's superstructure was burned, but the vessel listed and settled on the bottom of the river, partly submerged, before the fire reached its cargo of 70,000 gallons of oil. Its crew of 36 leaped into the river and were picked up by tugs and police boats.

MOVIE FIRE TOLL BIG

Mukden, Manchuria, March 20.—(AP)—One hundred and thirty Chinese men, women, and children, were burned to death at Kirin yesterday when fire destroyed a motion picture theater. Twenty others were injured.

The theater was of wood and was only two months old, having opened in January to show American films. Defective wiring was believed the cause of the disaster.

Memorial Services For Balfour Planned

London, March 20.—(AP)—Memorial services for the Earl of Balfour will be held at Westminster Abbey Saturday, the day set for the funeral of the Victorian statesman at his Scottish home, Wittinghame.

The Duke of York will represent King George, and leaders of state will join with other prominent persons and those of humble rank in paying homage to his memory.

At the same time a memorial service will be held in St. Giles Cathedral in Edinburgh.

The body will leave London at midnight tonight and will reach the East London station for the services at Wittinghame early tomorrow. The services there will be simple and private insofar as possible.

Tributes to the statesmanship and brilliance of Lord Balfour, who died yesterday at Woking, as well as his personal qualities, continued to arrive from all parts of the British Empire and foreign countries today.

Mrs. Roy Gooch Of Lee Center Is Dead

Mrs. Roy Gooch, wife of the former Supervisor of Lee Center township, passed away at an early hour this morning at her home south of Lee Center, her death resulting from influenza of three weeks duration.

Funeral services will be conducted from the Methodist church at Amboy Saturday afternoon at 2:30 with interment in Prairie Repose cemetery.

Mrs. Gooch was very well known in Dixon and leaves to mourn her passing, her husband, and four daughters, Mrs. Arthur Tuttle of Amboy and Misses Vera, Florence and Rosella at home.

Trumped Wife's Ace: Divorce Is Sequel

Seattle, Wash., March 20.—(AP)—Because he trumped his wife's ace in a bridge game, William Ellis was a single man today.

"In spite of the presence of two of our friends who were playing against us," Ellis told the court yesterday, "my wife completely lost her temper when I spoiled her play. She threw an alarm clock at me and knocked out one of my teeth. Then she packed my clothes and ordered me out of the house."

Judge Robert M. Jones granted him a divorce.

Rockford Baby Goes To Jail With Mother

Rockford, Ill., March 20.—(UP)—A baby girl a few months old went to jail today with her mother, Mrs. Della Optner, 39, who was remanded to a cell because of failure to pay a \$200 fine imposed after conviction on liquor charges. Four other children were left at home.

Candidate For Treasurer Visitor

CLARENCE F. BUCK

Well known Monmouth Republican, long a leader in state politics and leading candidate for the Republican nomination for State Treasurer, was a visitor in Dixon Wednesday and met many friends who voiced their support and encouragement. Story on page 8.

DECIDED UPTURN IN EMPLOYMENT U. S. FORECAST

Great Improvement In
Spring Months Is
Indication

Washington, March 20.—(UP)—A decided upturn in employment was forecast for the spring months by the Labor Department today.

Analyzing the state of trade, the Department concluded business and industry are consolidating the progress made in January for an early forward movement.

Climbing automobile production figures, preparations for widespread county and municipal highway building, as well as the \$3,250,000,000 public utilities construction program authorized, were pointed to as harbingers of better times.

"With these various projects under way there will be a large demand for labor, which will materially decrease the volume of unemployment apparent at the close of February," the Department's monthly survey of labor conditions said.

February employment figures showed an advance of one-tenth per cent over January, and payroll totals an increase of 3.5 per cent. Although these gains were smaller than in any February in the past seven years, in practically every industry there was a marked improvement in pay roll totals in relation to the volume of employment.

Coincident with the Labor Department survey, the Commerce Department reported a 50,792 increase in February automobile production, compared with the month preceding.

Alleged Smugglers Of Arms Arrested

Tucson, Ariz., Mar. 20—(AP)—John Gungl, United States Attorney for Arizona, announced today that twelve members of an alleged ring of conspirators to smuggle munitions into Mexico from Arizona during the Mexican revolution of 1929 had been arrested.
The arrests followed the return of secret indictments by a federal grand jury here and occurred in various parts of Mexico and the United States. Those taken into custody are Ignacio Moran, former Mexican Ambassador to Germany; Salvador Ateca, Salvador Franco Urias, General Augustine de la Vega, Augustine Gallo, Vincente de Andress, Phillip M. Mohun, Clark M. Carr, R. H. Polk, Alzino Frias and Antonio G. Maquero.
Mohun, Carr and Polk are Americans and few airplanes for the revolutionists.
Besides transportation of munitions, the indictments charge a conspiracy to deliver aircraft, bought in Arizona, across the international line into Mexico for use in the revolution, thereby violating the neutrality agreement between Mexico and the United States.

War Dept. To Buy 123 New Airplanes

Washington, March 20—(AP)—Contracts for 50 new attack planes and 73 bombing planes at a cost of \$2,900,000 were let today by the War Department.
The attack planes will be built by the Curtiss Airplane & Motor Company. They will be of the model A-3B. When delivered the Army will have a total of 78 planes of this type.
The Keystone Aircraft Corporation was awarded the contract for the bombardment planes at a cost of \$2,207,100.
Each of these giant bombers will be powered with two Pratt & Whitney 525-horsepower aircooled engines.

Seeks Flight Across Country In Glider

New York, March 20—(UP)—Captain Frank M. Hawks left Roosevelt Field, Long Island, today in a Waco biplane for Washington, D. C. where, it was learned, he would seek permission from the Department of Commerce to ride across the United States in a glider towed by an airplane.
The Department of Commerce has recently ruled that no glider may be towed by an airplane except by special permission.
It is understood that Captain Hawks will make an attempt at the world record for sustained glider flight when he gets to California.

Warning Against Paralyzing Drinks

Washington, Mar. 20—(UP)—The "paralyzing cocktail," rivaling wood alcohol in injury to the human system, is the newest boozing concoction created from isopropyl alcohol, Prohibition Commissioner J. M. Doran warned today.
Isopropyl alcohol is first cousin to wood alcohol and second cousin to ethyl or grain alcohol, Doran said. It is a synthetic preparation that should not be used as a beverage mixture.
"Although it contains no poisonous ingredients," he said, "it fogs the drinker's brain, causing a gloomy feeling, then it paralyzes the legs and finally it renders him unconscious."

CAFE PATRONS TURN ON HOLD-UPS WITH VIM

One Bandit Killed and Another Severely Beaten On Head

New York, March 20—(AP)—An attempt by three masked men to hold up a Greenwich Village restaurant shortly before midnight resulted in the killing of one of the robbers, the capture of another after patrons had beaten him severely, and the wounding of a man and a woman.
A man identified as Alfred Marino was killed by a policeman. While the robbers were collecting cash and jewelry from their victims a waiter slipped out and called Patrolman James F. Rogers. Finding the door locked Rogers fired a shot through the glass panel and stepped aside.
One of the holdup men leveled a pistol at Rogers but the gun jammed. Rogers then shot him through the head, killing him instantly. Another of the holdup men escaped. The third was seized by patrons.
Frank Boggiano, a patron, was struck in the abdomen by a bullet fired by one of the gunmen. Another bullet glanced from a table and struck Mrs. Clara Schumacher in the breast.
The captured robber was identified as Thomas Richione. Police found him bound on the floor of the restaurant severely beaten about the head with sugar bowls and other crockery. Police said they found a pistol on him and \$245 taken from the cash register. Scattered about the place was \$200 more and jewelry belonging to the patrons.
Louis Passanti and Charles Quirico, proprietors of the place, were arrested for possession of liquor.

Schroeder Woman Is Called To The Stand

New Castle, Pa., March 20—(UP)—Irene Schroeder was recalled to the witness stand today to attempt to prove herself insane after defense attorneys scored a victory over the prosecution in the tenth day of her trial on a charge of murder in connection with the slaying of Corporal Brady Paul last December 27.
The defense triumph came when Judge R. L. Hildbrand ruled that evidence may be introduced to prove Mrs. Schroeder's life was controlled by irresistible impulses to "rob, steal and flee."
If this narrow form of insanity defense is successful, it means the gun girl was at the scene of the Paul killing and legally but not mentally responsible for the Butler chain store robbery which preceded the fatal shooting.
Ben Jarrett, chief of defense counsel, began the direct examination.
"How far back can your remembrance?"
"Before my mother died."
"Did you have a blow on your head when you were 10 years old?"
"I did."
The defendant walked to the jury box. She showed a scar on her right forehead, running into the scalp.
"In your time you have done considerable stealing and robbing. How old were you when you started?"
"Nine years old, about."
"Did you ever steal before this fall?"
"Only once, but lost of times after."

ROBERT JOHNSON, AGED CITIZEN OF FRANKLIN, CALLED

Funeral Services To Be Held Saturday At M. E. Church

Franklin Grove, March 20—Robert Noe Johnson, since 1864 resident of Lee and Ogle counties, died at his home here Wednesday in his eighty-seventh year, attended by his devoted wife and members of his family. He had been an invalid since May 14, 1927, and was then reported stricken with paralysis.
Mr. Johnson was retired, but formerly had been a well known shipper of livestock to the stockyards in Chicago. He was also a veteran of the Civil War in which he enlisted as a volunteer at Columbus, Ohio, in 1861, in Company A, 2nd Battalion, 18th Regiment, U. S. Infantry. He served in the siege of Corinth, the battles of Stone River, Hoover's Gap, Mission Ridge, Resaca, Dallas, Kenesaw Mountain, Chattanooga River, Chickamauga, Peach Tree Creek and Jonesboro, and in General Sherman's campaign in Georgia until his three-year enlistment expired. At the end of this period his health had become impaired and he was mustered out at Atlanta, Georgia. He belongs to Geo. Hewitt Post G. A. R. Born in Delaware county, Ohio, June 22, 1843, Robert was the oldest son among the eight children of William and Margaret Hampton Noe Johnson; he was a namesake of the latter's father, Robert Noe, who came to Morrow county, Ohio, from Woodbridge, N. J., by covered wagon in 1822. The Johnson family also was among the Ohio pioneers, having made the wagon journey from Bath county, Virginia, in 1835. Robert's grandfather, Jesse was born near Frederick, Maryland, during the Revolution; Jesse's father, Bartholomew, was a signer of the Maryland Oath of Fidelity and Loyalty of 1776. In the Civil War Jesse's grandsons fought in both armies and family ties were strained between Ohio and Virginia. While Robert fought in the Union army his cousin, Morgan Campbell was sent as a Confederate prisoner to a camp near the family home in Ohio, and visited by one of Robert's uncle, David Johnson, now buried in Lighthouse cemetery, south of Oregon.
The William Johnson branch of the family had moved from Ohio to Dixon while Robert was in the army, so the twenty-one year old veteran followed them here, after a visit to his grandparents near Mt. Gilead, Ohio, and a prospecting trip on horseback in Iowa and Missouri. He began farming in the vicinity of Dixon, Nelson, Grand Detour and Nachusa, lived south of Oregon for many years, and became a well known figure on horseback buying cattle, which in the earlier days had to be driven many miles to market.
Mr. Johnson's first marriage with Miss Sarah Jane Stevens of Carthage, having been terminated by her death in 1883, he married in 1886 Miss Addie Bly, daughter of Isaac and Rebecca Dailey Bly of Light-house, Ogle county, survivors; of the marriage with Miss Addie Bly the only child is Mildred Noe Johnson, now Mrs. Barnabas Bryan, Jr., of New York City. One brother of the deceased, Adam Johnson of Carthage, three years his junior and three grandchildren, R. Lester, Roy P., and Everett E. Johnson all sons of Mr. and Mrs. Fred Johnson, besides the widow, remain to mourn this parting. Funeral services will be at the M. E. Church in Franklin Grove Saturday at 2 and burial in Lighthouse cemetery, south of Oregon, where also lie Mr. Johnson's parents, the first of his family to come to Illinois. The Reverend Frank Sheets of Oregon, minister of Lighthouse Church, will officiate at the funeral services.

YOUTH CHOOSES DEATH BY A FIRING SQUAD

Salt Lake City, Utah, March 20—(UP)—Fifty-nine days of life are left for Delbert Green before he falls before the bullets of an execution squad.
When dawn creeps over the Wasatch Mountains May 17, the 21-year old youth who shot and killed his wife, her mother and his uncle, will be led into the courtyard of the state penitentiary.
Green will be blindfolded and stood against a wall. Five guns will crack and bullets from the weapons that are loaded will carry out the death sentence.
The youth chose to meet death at the hands of a firing squad rather than on the gallows yesterday when his plea for a new trial was denied.
He was calm when told he must choose the manner of his death. He looked about the courtroom and then said quietly, "I'll be shot."
He was convicted on a charge of murdering his uncle, James Green, who was also his wife's stepfather. He first shot Green and then killed his wife and her mother as they pleaded for their lives.
The triple slaying followed a quarrel with his wife, who had left him and returned to the home of her parents at Farmington, near here.

CLAIMS EVIDENCE OF BRIBERY CONSPIRACY

Los Angeles, March 20—(AP)—Declaring that he has confessions or admissions of guilty participation in "the most outrageous bribery schemes ever uncovered in this country," District Attorney Byron Fitts today sought indictments against five or more persons involved in alleged jury tampering in connection with the \$100,000,000 Julian Petroleum Corporation fraud case.
Fitts said he would ask the grand jury to indict among others, Sheridan C. Lewis, former president of the Julian Company. Lewis was arrested yesterday on a charge of suspicion of conspiracy to offer and give a bribe to a jur

THE FARM

I WENT to see my grandpa who lives out on the farm. I found it very pleasant. Although the days were warm.

I liked the turkey gobbler that strutted all about. The more I made him gobble, the redder grew his snout.

The chickens crew and cackled around their nests inside. I liked them best as drumsticks. That kind that grandma fried.

The hogs were very funny. So greedy and so big. And now I'll know the meaning when mother calls me pig.

There stands the Jersey milk cow. Her big eyes all gleam. She's glad she's full of clover. I'm glad she's full of cream.

I rode the working horses. I also rode the plow. But grandma didn't want me to ride the Jersey cow.

But somehow I got homesick. And had to go and cry. I don't believe my grandma could see the reason why.

She thinks I should be happy with things that she enjoys. But grandma saw the season. I want to play with boys.

Art Dept. Arranges For Pottery Exhibit Meeting Woman's Club

The Art Dept. of the Dixon Woman's Club have arranged to have a State Federation pottery exhibit for Saturday's meeting of the club to be held at the Christian church as usual at 2:30.

This exhibit will consist of some very beautiful pottery and is certain to be very interesting as all home-makers are lovers of interesting pottery. Mr. Hooper, District Art chairman will give the talk in connection with the exhibit.

Mrs. Attis, soloist of Ashton, accompanied at the piano by Mrs. Goodsell will furnish the music for the afternoon.

All members are urged to be on time as the primaries are to be held and do not forget the Women's Exchange which is carried on during the social hour.

Hostesses will be Mesdames Robinson, Sacerill, Burnham, Hess, Miller, Rhodes, Pine, Schilberg, Bryant, Sykes, Wiener.

Ideal Club Held Pleasant Meeting

The members of the Ideal Club were entertained at the home of Mrs. H. W. Leydig, 1523 Third St. Wednesday afternoon.

Mrs. Harry Quick read two interesting articles, one pertaining to the "Eighteenth Amendment" and the "What is Wrong with the Right People?"

Mrs. Lloyd Lewis gave a number of current events, these were instructive and much enjoyed.

Temple refreshments were served by the hostess and these were in keeping with St. Patrick's Day.

Junior Choir to Sing Three Sundays

The Junior Choir of Saint Luke's church, under the direction of Mrs. Lester Wilhelm and Mrs. M. L. Davies, is to sing at the 4 o'clock Choral Service in the church the next three Sundays. All are most cordially invited to be present at these services.

Annual Meeting Grace Church Was Enjoyed

The annual meeting of Grace church was held in the church on Wednesday evening. About one hundred and forty gathered for the supper at 6:30 and nearly all remained for the business meeting. The pastor led the devotionals after which the different organizations with the church board gave their reports which revealed that more money was raised this year than several years back. Every organization is in a healthy condition. The church membership is on the increase. Mr. Raymond Willebrandt was elected trustee for five years; Herman Hughes was elected class leader; A. W. Hartman and Miss Jeanette Dewey, assistants.

The pastor complimented the church members for their zeal and cooperation in the work which made the past year so successful.

ENTERTAINED AT DINNER IN DIXON

Mrs. Arthur Carnes entertained Miss Genevieve Simonson at dinner Saturday evening, before the latter returned to resume her duties in Chicago. Miss Simonson left Sunday evening for Chicago where she has an excellent position as a stenographer. She was called home by the illness and death of her mother, Mrs. Lydia Morrill.

Mrs. Woodyatt Hostess at Club Luncheon

On Wednesday Mrs. Ida Woodyatt pleasantly entertained the G. and C. club at a 1 o'clock luncheon at the Coffee Shop. Bridge was the chief diversion for the afternoon. All the club members were present. Spring flowers in pastel shades were the decorations. All expressed themselves as having had a most enjoyable time.

It Is Cherry Blossom Time In Washington

Associated Press Staff Writer.

Washington, March 20.—(AP)—The Japanese cherry blossoms, which yearly lure thousands of visitors to Washington, soon will be flaunting their banners of spring time.

By April 1, more than 800 single flowering trees on West Potomac Park, probably will be in full bloom. Charles Henlock, chief of the horticultural division of public buildings and grounds, said today, these trees should be heavy with flowers and, barring too much wind, should last two weeks.

With the dying of the single blossoms, Mr. Henlock expects about an equal number of double flowering trees in East Potomac Park to open in full bloom. Running the gamut of pink, with color excursions into greenish gold, they will retain their soft hints until about May 1.

There are a dozen varieties of the trees planted here, Mr. Henlock explained, none of which bear fruit. One variety is called "Happiness," and among others are "Dawn," "Snow-Flakes," and "Yellow Gown."

In November, 1909, during the administration of William Howard Taft, the municipality of Tokyo, Japan, presented to the city of Washington 2,000 cherry trees as a token of esteem.

Upon condemnation of these soon after arrival because of their being infected, another group was sent in 1911 to replace them. They prospered on alien soil.

The first tree was planted by Mrs. Taft in the presence of the Japanese ambassador.

Peter V. Ross Gave Scientist Lecture For First Church

Peter V. Ross, C. S. B., San Francisco, Cal., gave a lecture on Christian Science in First Church of Christ, Scientist, 515 North Main street, Rockford, Monday evening. He said in part:

"More and more in these days are we transferring all things to the mental realm. Christian Science puts disease there, instead of being a physical condition. Instead of being a stubborn reality, is a belief or an illusion of the human mind, which the truth will cure."

"You, your real self, are incorporeal. This is why you are so safe. Really there can be no collisions, no accidents for you, no inflammation, no congestion in you, except in belief or illusion or dreamland. You are more in the nature of consciousness than corporeality. You are an assemblage of thoughts and ideas rather than of cells and atoms. You are an individual consciousness not a physical body."

"The greater the man, if greatness be measured as it should be by spirituality, the more constant his practice to commune with divine Mind. This was exemplified in the life of Christ Jesus."

"Disease and evil, in their worst forms, became unreal to him and he made them unreal to others. Even death could not make good its boasts in his presence. He proved that individual life is indestructible and continuous; he stepped forth into the freedom and the power of an endless life, a state to which every one of us may rightly aspire."

Entertained for Mrs. Ostrup, This Week

Mrs. W. J. Sullivan has been entertaining Mrs. J. C. Ostrup of Winnipeg, Canada, this week at her home. On Tuesday Mrs. Sullivan gave a luncheon at the Coffee House for her, and in the afternoon Mrs. George Van Inwegen entertained with bridge at her home in Mrs. Ostrup's honor. That evening Mrs. Sullivan entertained with bridge for her guest.

Today Mrs. A. N. Stein delightfully entertained with a luncheon and bridge at the Nachusa Tavern, honoring Mrs. Ostrup. Friday, Mrs. Sullivan and guest will motor to Davenport.

Will Instruct in Contract Bridge in Dixon

Mrs. C. H. Bokhoff went to Moline today to visit Mrs. Lucy Fisk Samuels and where she will play Contract bridge with Mr. Whitehead, the bridge expert.

On returning to Dixon, Mrs. Bokhoff will instruct bridge players in the method of playing Contract bridge, having classes at the Art and Gift Shop, where the Misses Meppen are the proprietors.

YOUR CHILDREN

by OLIVE ROBERTS BARTON

© 1930 BY WEA SERVICE, INC.

I am not prepared to defend the accuracy of this statement, but it comes from a national congressman from New York, Fiorelli La Guardia, who last year ran for Mayor of New York City. Said he:

"Prepared salad dressings have broken up more homes than all the chorus girls in the world."

How much of an authority La Guardia is on divorce, I do not know, but he has the reputation of being the most talented cook in Congress. Men who disagree with him utterly on policy, agree unanimously on the excellence of his spaghetti.

I have no doubt but he is a wizard with olive oil, lemon juice, paprika, and all the ingredients that go into the making of excellent dressing.

I have nothing against prepared dressings, but I do believe that serving a good salad, with a distinctive dressing that you make yourself, and use your own imagination on, is a social asset within easy reach.

Any waiter in a French cafe can mix a dressing in a spoon that is a real delight, with just such unimportant items as would naturally be at hand on the table. He does it in the time he could open a can, and apparently has no sense he is doing anything remarkable.

When you hear the host calling for the materials, and know he is going to mix the dressing at the table, you know you are about to sit in on a very pleasant and interesting ceremony.

It may not hold your husband and it may not immunize you from divorce troubles, but it is decidedly worth any person's time, I think, to learn to make good salad dressings and good salads.

A PASSING PARADE
Among the dear old customs that is passing, and that should pass, is the Easter parade.

According to J. Perling, of the textiles division of "Commerce," women are no longer interested in this annual display of clothing—he points out that competition in clothes is now an all year round proposition, not seasonal.

Whatever the reason, it is a pleasure to know that a day that has such significance in itself, should have ceased to be a day in which every woman tried to outdo her neighbors.

If you load up any holiday with more than it will bear, it breaks under the strain. Easter has. So has the Fourth of July, which is now the sanest of days instead of a miniature battle. There is a tendency on the part of many people to make Thanksgiving less a day of gorging, and more of a normal calvary day.

Christmas is still burdened to the breaking point, but it is bound to evolve into something besides a giving contest.

High School P. T. A. Elected Officers for Ensuing 12 Months

The next to the last meeting of the High School Parent Teachers Association was held Wednesday afternoon in the Music Room of the High School. Members of the H. S. WOMAN'S RULES TO GUIDE POLICE OF LOS ANGELES

Los Angeles.—(AP)—Rules laid down by a woman, Miss Mabel Olin, soon will be the law under which the Los Angeles police department will work.

She has compiled a new police manual, which is the culmination of her 15 years "on the force" as assistant secretary to a succession of police chiefs.

Miss Olin's manual is the result of her close observation of the inner workings of the department with rules compiled a score of years ago. Her name is on the book as author.

The sixty-page manual sets the police force in motion along the lines of a military organization. The outstanding change is the centralization of power, making each officer responsible for results. Reduction of the number of lieutenants concentrates this responsibility.

WHERE THE FAULT LIES.

The creed of modern American youth, according to a Philadelphia rector, is "a leer, a jeer and a jug of gin."

The rector elaborates as follows:

"The advance of atheism among us is appalling. It has become the fad and the fashion to deny God. Most of our younger intelligentsia are flippantly atheistic; our books and magazines are full of it.

"They have no gospel but a leer, a jug of gin."

All of this is rather caustic. The only thing that keeps us from getting pretty discouraged about it all is the suspicion that the reverend gentleman is talking through his hat.

There is, too, the thought that he doesn't know much about his subject; for it is quite certain that no young people would throng to a church presided over by a man who talks that way.

However, there is no sense in simply dismissing him as a man with a grouch. His lament is not especially new. For a good many years we have been hearing outcries about the younger generation. Perhaps now would be a good time to sit down and examine these complaints a bit.

One thing ought to be self-evident. The younger generation is what we have made it. If it has faults, those faults are merely the reflection of our own.

These youngsters who are coming up through their 'teens to their twenties right now are not as dumb as we might suppose. You may rest assured that they are constantly scrutinizing us, their elders, with rather shrewd young eyes. They are trying to discover new modes of thought and conduct, it is because they have decided that our modes don't quite do.

Are they entirely unjustified in such a belief? Is the world today in such a perfect condition that intelligent youngsters ought to enter it can see no room for improvement? A cataclysmic, idiotic world war is hardly a decade behind us, and there is no sign that another will not follow it presently. If it does, these irreverent youths of ours will march out—at our bidding—to get themselves killed, just as the flippant youngsters of 1917 did; and the youngsters know it.

And that isn't all. If the youngsters jeer—who taught them to, if not their elders? If they occasionally take a swig of gin—well, who supports the bootlegger, if not their elders?

Wailing about the follies of our young people is poor business. In criticizing them we really criticize ourselves. In a great many ways we have made a mess of things; why not admit it, instead of pretending that some unaccountable spirit of madness has descended on youth and turned it into wrong paths?

And meanwhile, bear this in mind; a phrase that rolls off the tongue as smoothly as this "leer, jeer and a jug of gin" is just a little bit too pat to have any shadow of a meaning.

BUCK FOR STATE TREASURER.

Clarence F. Buck of Monmouth, former state senator, republican leader of many years standing, a man of splendid ability, is a candidate for state treasurer on the Republican ticket. He should have the nomination and the election.

Mr. Buck has a long and brilliant record as a public servant and a party leader and the outstanding points in his record are trustworthiness, executive ability and devotion to public interests. This is the first time he has asked for state office, although he has conducted successful state-wide campaigns for Governor Lowden and the late Senator Medill McCormick.

The Telegraph predicts election and a highly successful administration for Mr. Buck.

The captain was a friendly man and to the Tinymites said, "You can come up here to the pilot house some other day with me. But now, I have some work to do, and therefore I am leaving you. Just let me know when there is something else you want to see."

"I might suggest that you all run around the decks and have some fun, go down into the engine room. It's quite a thrilling sight. The man down there will gladly show what makes this ocean liner go. I'll tell them that you're coming so that it will be all right."

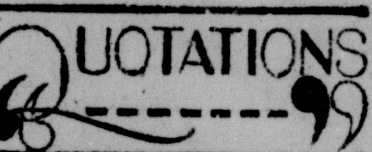

"Oh, thank you, captain," Copy cried. And then he very sadly sighed. "I wish I was a captain of a great wondrous ship. Just think of living on the sea. I'm sure that that would just suit me. I know I'd get a real thrill out of every single trip."

The captain said, "Perhaps, some day, things may turn out in just that way. And now I think I have a little plan to please you all. You all can come and eat with me and we'll be merry as can be. Remember, now! At dinner time I'd like to have you call."

"That's great!" cried Scouty. "My you're kind and you can be sure you will find us all on hand when it is time to sit down to the meal." The Travel Man and Tinymites then went down upon the decks again. The Travel Man said, "We'll all have a dinner that is real."

And, sure enough, it was a treat, with heaps and heaps of things to eat. 'Twas almost like a carnival, the way the meal was served. Much later, when they went to bed, wee Clowny smiled and loudly said, "We've had a wondrous time today. 'Twas more than we deserved."

"UNCLE TOM'S CABIN"

On March 20, 1852, "Uncle Tom's Cabin," a book by Harriet Beecher Stowe which is said to have hastened the over-throw of slavery, was published in book form for the first time.

When the story first appeared in the National Era of Washington, D. C., as a serial, it attracted little attention, but a few weeks after it was issued in book form it was a universal favorite. During the next five years more than 500,000 copies were sold in the United States alone. Although "Uncle Tom's Cabin" was

advised to consult his family physician.

Our building was fitted with a large waiting room, eight examining rooms, a laboratory, an X-ray room and a specialty room for the examination of eyes, ears, noses and throats. The patients were selected from those who had applied in an adjoining building containing our exhibits, where the patients' histories were taken by two internes. Any person who applied and stated that he was ill or under the care of a physician was refused examination. We took only those who were apparently well. On account of the influence of the mother in the home, we gave preference in our selection of women, and attempted, furthermore, to choose applicants who came from all parts of the state. The periodic health examination record blank of the American Medical Association was used.

Of the 331 adults examined, 200 were found to have physical defects, 146 women and 54 men. In the 200 patients, 339 defects were discovered. Those of chief concern were:

Blood pressure, appendix, eyes, teeth, tonsils, heart, hernia, thyroid, lungs, tuberculosis.

In listing the defects, we had to bear in mind that a periodic health examination does not necessarily mean a diagnosis. The purpose is to detect the abnormal from the normal, and when an abnormal condition is found, to advise further examination. For instance, a defect of vision may be discovered in a health examination, but it would require special examination to determine etiology, degree and type of defect.

This demonstration has done two important things. The periodic health examination has been demonstrated to a sufficient number of people from a large enough area to have state-wide influence, and from these people we believe a greater demand will grow for this sort of medical service. Physicians have been educated in the possibilities of prevention medical practice and have been taught what to expect from a health examination and how to make one. Such examinations, made by the family doctor once a year, together with a dental check-up every six months, is the straight and short road to greatly improved health, and that means longer, better, happier life.

There are two types of people in the world—those who go away and those who stay at home. We envy the venturesomeness of the prodigals who

have their fling. We forget the more daring heroism of those who stay and risk the rewards of virtue and the satisfactions of truth.

The best we know about the prodigal is that he comes back. He gets a lot of thrills in going wrong, but the biggest thrill is in coming home to the old reliabilities of faith and life.

A man can never go all the way and stay away. The Far Country is fine for dissipation, but a poor place to settle and raise a family in.

One can deny the old faiths, sneer at the old virtues and flout the old ideals, but while he is wasting his substance and getting thinner and sicker, the old ideals and virtues are waiting unbroken and unwasted for him to come back to.

When the prodigal takes his portion and wastes it on prostitutes and revelry he is played up in the headlines.

But when he comes back, broken and repentant, only his Father and the church and the angels take note. To make the world safe for prodigals some one has to stay at home and keep the home fires burning. Because the prodigal will come back. (Copyright 1930, NEA Service, Inc.)

IOWA COUPLE PARENTS OF FIVE SETS OF TWINS

Council Bluffs Pair Say
Any More Will Be Wel-
come and Cared For

Council Bluffs, Ia.—(UP)—To most fathers the arrival of a pair of twins comes as a shock, but Andrew Koger has become inured and only smiled when informed his wife had given birth to their fifth pair.

Pride shone from his glance as he announced "They told us before there were several families with four sets of twins. Now it's a cinch we've got them beat."

Married in 1905, Mr. and Mrs. Koger half-expected twins when they learned their first baby was coming, for there were twins in both branches of the family.

They were disappointed the first time, however when Orren, now 25, appeared. High hopes faded three years later when Ellery was born and almost disappeared two years later when Bessie made her appearance.

Then hope flared again and was rewarded with the appearance of Clyde and Claude in 1913. Abbie and Addie followed in 1915, and Floyd and Lloyd came in 1920.

Said Andrew to his wife as she led the latest arrivals: "I told you so. There's twins and twins on both sides. There'll be more. You wait and see."

Two years passed before Jean and Jeannette showed up and the parents named them and sought more alliterative names for use in case Andrew's prediction was fulfilled in greater portion.

Jack, now 5, interrupted their search and they began to believe the twins had ended, but last year hope was renewed.

Came 1930 and with it Norma Jean and Donald Dean.

Now Koger, who is 48, ruminates as he works for the Union Pacific transfer in Council Bluffs and his wife 42, wonders as she works about the house, for more alliterative names may be needed.

"You never can tell, it may be the

CRYSTAL RIVER DRAWS INTEREST SPORTS WRITERS

Writers, Ball Players,
Friends, Enjoyed
Party On River

The following dispatch from Crystal River, Fla., in which many Dixons are interested, will be of interest here:

Crystal River is becoming more popular every day for the wonderful fishing and hunting. On last Sunday the following sport writers were here—accompanied by Raymond Bressler, of the Brooklyn Standard Union; Louis Nisioff of the Brooklyn Times; Homer Thorne of the New York Evening Post; Thomas Holmes of the Brooklyn Daily Eagle; Roscoe McGowan, of the New York Times; Lee Scott of the Brooklyn Citizen; Howard Smith of the Birmingham News; Murray Tynan of the New York Herald Tribune; Edward Murphy of the New York Evening Sun and Telegraph; Garry R. Schumacker of the New York Evening Journal; and Farrest Cair of the New York Evening World.

The party enjoyed a fish dinner at the proposed camp site a few miles down the river and were accompanied later in the day by Dazy Vance and Rube Bessonite, first baseman for the Brooklyn team, who tried to reach the Camp site over the new road and got stuck and missed the party, but after being told of the good time the party had, said they would be on time for the next blow out. Each and every one expressed much enthusiasm over the river and said with the beautiful surroundings, Citrus county had the most wonderful spot in Florida for fishing and hunting. This party was joined by the following business men of Crystal River: L. C. Yeomans, H. P. Anderson, J. E. Stevens and son, Tonk, Chas. McBride, W. T. McConnell, J. C. Holder, Marion Purcell and H. Lazo.

Before you take an auto trip you should have one of the Dixon Telegraph's Accident Insurance Policies. \$1.25 will pay for a year's protection. In case of death your family will receive \$1,000.

On the other hand, a vast number of western states reported that legislative activity on prohibition was at a standstill. In many of these latter the legislatures are adjourned until next year and various organizations are planning prohibition measures—both towards repeal and towards more strict enforcement—at that time. In Pennsylvania the Association Against the Prohibition Amendment is active particularly towards ascertaining sentiment of office holders seeking re-election. They have not announced their policy.

In such western states as Colorado, Wyoming, New Mexico, Texas, Nebraska, Indiana, Utah, Montana, Missouri, etc. Legislative activity is dormant. Wet leaders however forecast activity in many of the states in the coming legislative sessions.

The south mainly is resting with its present prohibitive laws with Georgia, North Carolina, and one or two others having prohibition laws with penalties even more drastic than the national prohibition act. The same is true in Oregon.

Many political campaigns this fall will be waged on the prohibition issue and one of the most interesting is in Maine where Dugald B. Dewar will seek the Republican Senatorial nomination on a "wet" ticket, the first time in 40 years that a "wet" has sought the office.

Standing out as the better cigarette

THE SINGLE IDEA of superlative quality was the inspiration for Camel Cigarettes.

From the time when the first Camel Cigarette was made that one idea has set Camel apart.

A policy of better tobaccos, combined in an incomparable blend, manufactured with the most exacting care—all to assure the utmost pleasure in smoking.

That is the ideal and the practice back of every package of Camel Cigarettes.

It has made Camel the most popular cigarette ever known. More millions have chosen Camels for smoking pleasure than ever accorded their patronage to any other cigarette.

CALIFORNIA SET FOR BATTLES IN WAR MANEUVERS

Red Army Established in Strong Position; Air Force to Mobilize

BY ELWOOD SQUIRES
(United Press Staff Correspondent)
Sacramento, Cal.—(UP)—American air forces are mobilizing for war in California.

A strong "Red" enemy coalition already has established itself in Southern California, with navy bases at Los Angeles and San Diego.

The enemy has advanced to form a front line in the San Joaquin valley, in central California, and San Francisco is threatened with attack.

The only hope is centered in the American air force, which has made its base at Mather Field, 12 miles east of Sacramento. Active operations against the enemy will start as soon as the full force of 130 planes from all over the United States is complete there.

There is the situation which faces Uncle Sam and that he will start solving April 1. It's all a game, of course, but a highly scientific one, that has been planned by army officers for their air corps field exercises to be held here April 1 to 24.

For the first time in history the Pacific Coast is to have simulated coast defense operations. Also, for the first time, the army is to put into practice certain new tactics of aerial warfare.

Back in 1918, Mather Field was center of air activities on the Pacific Coast. Here men from the west were trained as aviators and sent to France. Since then the field has laid practically dormant, used as a landing place for air mail planes and occasional commercial and amateur pilots.

The advantage of this field has always been recognized by the government, however, and when planes were formulated for the air corps to hold their maneuvers on the Pacific Coast, Mather Field was the logical choice.

Far enough inland to be secure against sudden enemy attack, the field is located in the center of California's two great valleys—the Sacramento and San Joaquin.

Stationed at the field will be the four branches of the army air forces—pursuit, bombardment, attack, and observation. Their first week will be devoted to the training of these four groups in their individual work.

During the second week undisclosed army tactics will be tested for their feasibility.

Then on April 17 "zero hour" will be at hand for the American air men. Early that morning the full

Accident Casualty Hazard Again Stirs the Country

U. S. Accident Death-Rate More Than Double That of Nearest Rival

ALARMED at the increase in industrial accidents in New York, which have grown from 218,667 to 333,356 in 1929 and resulted in the award of more than \$42,000,000 by the New York State Industrial Commission in 100,462 cases, fifty thousand firms and more than fifteen trade organizations are participating in a safety campaign which started March 1st and will continue for three months, according to an announcement by the Greater New York Industrial Safety Committee.

With more than 96,000 persons in the United States meeting death by accident in 1928 and the possibility of an unwelcome increase in this huge total when the 1929 figures are released, the economic loss entailed is so startling, aside from the displacement of many homes throughout the land, that commercial and civic organizations are uniting with various foundation and research societies in the endeavor to reduce the accidental death rate by a national campaign of education.

California, ranking high in the number of automobile accidents and shocked at the number of injuries and fatalities, has inaugurated a campaign to impress on the mind of every motorist the necessity for caution and "Safety Always" by the adoption of drastic road rules and sensational signs.

Aside from the injuries by concussion thousands of motorists suffer lacerations from splintered glass which result in disfigurement or death. Fear of this has brought

How California Warns the Motorist

a demand for non-scattering glass as the element next in importance to brakes in the avoidance of sanguinary accidents. Many automobile manufacturers, recognizing this factor of safety, have made this glass standard for windshields.

Some of the higher priced cars have used non-scattering glass as standard equipment throughout the car—doors, windows and windshields. And, on the first of the year one of the leading medium priced cars set the pace by adopting its complete equipment.

Statistics offer a graphic picture of the road recklessness that has made the United States the world's record holder for accidents. While the death rate from all accidents decreased 20 per cent from 1913 to 1921, there was an increase of 14 per cent from 1921 to 1927. Automobile accidents are a very conspicuous factor, showing a steady increase since 1913. From the latter year to 1921 an increase of 195 per cent was experienced, and from 1921 to 1927 the death rate continued its upward climb by 71 per cent.

No other nation in the world equals our death rate from accidents and in most cases ours is double the more important nations such as England, France, Germany and Italy, in most of which the population is much greater to the square mile. A survey of the facts indicates that the attention devoted to accidents and the results obtained are much less satisfactory than in public health work directed against diseases.

Accidents not only cause about six per cent of all deaths in the United States, but there are only six causes of death by disease that have greater importance.

LEE CENTER ITEMS

Lee Center—This month has been marked by many movements. PROHIBITION IS DOMINANT ISSUE THROUGH NATION

United Press Survey Was
Made Throughout
United States

BY MAX BUCKINGHAM
(United Press Staff Correspondent)
New York, March 20—(UP)—Prohibition has become a dominating issue in the nation within the past few months. A United Press survey disclosed today.

Recent developments disclose that about 100 miles on the subject have been introduced in Congress; 12 states have prohibition legislation either introduced, or about to be introduced; 11 recent polls have been taken inquiring prohibition sentiment and some still are under way; hearings have been started on several national measures both wet and dry forces are tightening their lines for concerted drives either towards legislation or toward election of Congressman or state officials this fall.

Polls of sentiment on the prohibition question have been taken by dries, by wets and by supposedly neutral agencies.

Polls Inconclusive
Where there have been "wet" trends in polls, the voters' disposition has leaned toward repeal rather than modification of the dry law. These polls, however, are considered generally as inconclusive to date. On the other side is a recent poll by the Pathfinder magazine in Washington which revealed a preponderant enforcement sentiment in dry rural communities.

Chairman Wickensham of the Hoover Law Enforcement Commission has said that 2.75 beer would "not satisfy the robust appetite." Desire for "hard liquor" may explain some of the wet attitude in favor of repeal, but in any case, wets at Washington have practically written the mild 2.75 beer off their program of "cures" for what they regard as defects in the present prohibition situation.

Main legislative activity is in the east. The United Press survey disclosed. New York, Massachusetts and Rhode Island are the center of the most heated state fights. In some of the western and southern states there have been introduced—and passed in some cases—amendments making more stringent the state enforcement laws.

At Standstill in West
Little Lois Allen, aged five years, who is now a protegee of the National Home for Widow and Orphans at Eaton Rapids, Michigan, has been selected to go to the White House and present a Buddy Poppy to President Hoover on Wednesday, March 26th. Miss Allen will be escorted to the White House from the Union Station with a uniformed delegation and the one hundred fourteen piece band and drum and bugle corps of the V. F. W. in Washington. This ceremony at the White House will be the official endorsement by President Hoover of the Nation-wide distribution of Buddy Poppies by the Veterans of Foreign Wars.

Youth Killed When He Attempted Theft
McLeansboro, Ill., March 19—(AP)—Orval Nangle, 19, died in a West Frankfort hospital this morning from gunshot wounds he received last night when he attempted to hold up the Cozy Corner Cafe here.

Loren Lambert, McLeansboro night policeman, was in the cafe when Nangle entered and announced he had come to hold up the place.

"Do you mean it?" Lambert asked. The question was a signal for both men to begin shooting. When the firing had ended Nangle had been struck five times and Lambert twice.

It was said today that neither of the officers' wounds, one through the wrist and the other in the side, was dangerous.

Nangle's two companions, one who waited at the wheel of a motor car

and the other outside the cafe, escaped when the shooting started. A search was being made for them today.

Nangle was a miner who lived in the country near West Frankfort. His father, Marnie Nangle, was killed in a West Frankfort mine riot several years ago.

Bootlegger Killed On Eve Of His Trial
Collinsville, Ill., Mar. 19—(AP)—Angelo Clementi, alleged bootlegger scheduled to face trial tomorrow with nine other men in a liquor conspiracy, case, was lured from his home here early today by two men posing as federal agents. His body, pierced by five bullets, was found later beside U. S. Highway No. 40 between Collinsville and East St. Louis.

Clementi's abductors drove away with him in an automobile and authorities believe he was shot to death in the car and his body thrown out beside the highway.

Investigators are working on a theory that Clementi was killed

either to prevent him from testifying against his government evidence against his defendants or to intimidate others who might "talk."

Tim Is Fugitive
Santa Rosa, Calif., March 19—Tim, the police dog sheep killer, a fugitive from justice today was death sentence hanging over him. Satisfied smiles wreathed the faces of most of the town's small boys.

The dog escaped from the pond on the eve of his execution. Suspicion—but no proof—was laid on the hundreds of friends made while being tried and sent to death.

Tim's case claimed the interest of the entire country. Citizens from every state appealed to Governor to save the life of the dog but the appeals were unnecessary in view of many friends.

LARENCE BUCK WAS VISITOR IN DIXON YESTERDAY

Favorite For Republican Nomination For Treasurer Here

Clarence F. Buck of Monmouth, Ill., was a Dixon visitor Wednesday. Mr. Buck, former leader in the state Senate and known to Illinois Republicans as a leader of ability, is candidate for the republican nomination for state treasurer. Of all the field Mr. Buck is the favorite to win.

KAVATONE BUILDS UP BOY RUN DOWN BY SCARLET FEVER

Tiredness, Weakness, Nervousness, Night Sweats Replaced by Bubbling Strength and Energy.

Kavatone, because of the manner in which it is made and the ingredients it contains, works right hand in hand with nature in eliminating poisons and impurities from the system and in reviving and rejuvenating the functioning organs of the body. The result is that people who are weakened by ailments of varying nature find in Kavatone just the needed support on the road to health. An example of the manner in which Kavatone builds new strength and energy is to be found in the statement of Joseph J. Patelle, 16-year-old school boy, living with his grandparents at 328 Pine Lake, LaPorte, Ind. To the Kavatone Man this grateful lad said: "I had an attack of scarlet fever about six years ago and was terribly run-down ever since. Unlike most boys, I did not have the strength and energy to run and romp and engage in all kinds of sports. This made me very unhappy and discouraged since I am a natural lover of all sorts of games and always wanted to take part in them. In stead of wanting to be active all the time my great desire was to rest and sleep and it seemed that I could not get enough rest even though I was so inactive. My nights were terrible. I tossed and tumbled and tore up the bed all night and would get up in the morning more tired than when I went to bed. Worst of all were the terrible night sweats that soaked my bedding and night wear. My appetite was very poor and finicky and my weight kept going down until I weighed only slightly more than a hundred pounds. Of course all this affected my complexion, which became sallow and my body gave the appearance of being emaciated. I was certainly an unhappy and discouraged boy and despaired of ever going out and having a good time like my schoolmates. Then I started taking Kavatone and everything changed immediately. Grandmother read about Kavatone in the paper and thought maybe it would help me to regain my strength and natural energy. From the time I started taking the first bottle I felt ever so much better. My appetite improved at once and I found I could sleep well at night without night sweats or the old restlessness. Of course the improvement in my condition soon began to tell on my strength and I found I could play or take part in games without any bad effects. My complexion, too, has cleared up wonderfully and I am gradually gaining in weight. In fact now, after having taken only four bottles I am almost as healthy as ever. Grandma says she can notice such a wonderful change in me, too. It sure is good to feel strong again and I gave Kavatone credit for the change."

The Kavatone Man is located at the FORD HOPKINS DRUG STORE, Dixon, Ill., where he is daily meeting the public and explaining the merits of this wonderful medicine. Everyone who takes Kavatone Man and head his story.

named Clarence Buck, of Monmouth, who handled the thousands of dollars the Illinois Firemen's association found necessary to do its business. He was a newspaper man at the time and a most genial and capable gentleman. During all these years we have kept track of him because we knew him as a real fellow a he-man who did things, and an honest man as well as a capable man. He was in the city last evening and this morning and met a considerable number of our people to tell them that he has resigned the office of director of agriculture of Illinois, to which he was appointed by Governor Emmerson, to become a candidate for state treasurer, and he is traveling over the state seeing as many of the voters as he can, and like Lindy, playing a lone hand. He hasn't any campaign manager, hasn't anybody pushing his candidacy except the people. No faction nor bunch of politicians is back of him. He simply concluded he would like to be treasurer of Illinois and started out after the position and is almost sure of being elected, for he is known all over the state.

We had a pleasant visit with him last evening and talked over the old tournament and footracing days.

In coming before the people for the office he makes the following statement:

I feel that my business and political activities through an extended period of time have fitted me for giving them creditable service. I shall try, if elected, to do exactly that. To those who do not know me I invite a scrutinizing of my public record. Born in Monmouth, Warren county, Illinois—parents came to Illinois from Vermont and Ohio in the early '40's—graduate of Monmouth public schools and Monmouth college—farmer and stock raiser—Presbyterian, Knight of Pythias, Elk, Modern Woodman of America, Odd Fellow and Rotarian.

Have been publisher of the Monmouth Daily Atlas, chief of the Monmouth fire department, treasurer, Illinois Firemen's Assn., president of Monmouth hospital, trustee of Monmouth college, postmaster of Monmouth, member of Illinois state senate, (author of present state bank law, director of finance of United States Shipping Board, United States collector of customs in Chicago district, in charge of organization of new banks in state auditor's office, director of agriculture of Illinois.

Chairman of Warren County Republican committee, president of Illinois League Republican clubs, member of Republican State Central committee. Have always stood for clean politics—believe that agriculture depression can be remedied only by full co-operation of business and agriculture—was national manager of Frank O. Lowden's 1928 campaign for president and was a delegate-at-large to the Kansas City National Republican convention.

VETERAN IS KILLED

Chicago, March 19—(UP)—The body of a crippled World War veteran lay in the Bellwood morgue which authorities attempting to identify it and searching for discharge papers which disappeared.

The veteran was killed by a train as he walked along the right-of-way toward the Edward Hines Veterans' Hospital at Maywood to be treated. The motorman said he believed the veteran threw himself under the train.

A few hours before he was killed the veteran stopped at Bellwood police station to rest. There he showed policemen his discharge papers and said he was walking to the hospital as he had no money to pay carfare.

"It didn't take an hour and Shirley was smiling again"

"In the middle of the afternoon Shirley started to cough. She felt hot and 'grippy'. Luckily we had some Smith Brothers' Cough Syrup in the house. It didn't take an hour—and my little girl was smiling again. By bed time the cough was completely gone!" Mrs. F. HELLER

BURNED SAVING CORPSE
Buckner, Ill., March 19—(UP)—While relatives waited the funeral hour of Novel Blair, who died in the Chester penitentiary yesterday, gasoline poured on a kitchen fire exploded today seriously burning two men. The house caught fire and was destroyed. The casket containing Blair's body was slightly burned before it could be lifted outside. D. Craig and Charles Roth were taken to a hospital, where their condition was reported serious. Other members of the family were slightly burned.

The fire occurred when someone attempted to start a fire in the stove, and mistook a can of gasoline for kerosene.

Dixon Unit Formed For Home Bureau Work on Tuesday

A joint meeting, including the South Dixon Unit and the Dixon Unit of the Lee County Home Bureau, was held Tuesday afternoon at the pleasant home of Mrs. Earl Auman with a large attendance.

The meeting was opened by the chairman, after which the minutes and roll call of the previous meeting were given. For the second subject Mrs. Florence Syverud, County Home Adviser gave an interesting lecture on Fatigue. The Dixon Unit was organized and Mrs. A. J. Long and Mrs. Joy Atkinson, county officers were present to assist. Miss Edna Decker was elected chairman of the Dixon Unit; Mrs. Charles Hart was elected vice chairman and Mrs. Earl Auman secretary and treasurer. After this Miss Auman gave a pleasing violin solo, accompanied at the piano by Mrs. Earl Auman. The meeting closed with a song.

The next meeting will be held with Mrs. Peter Hoyle.

Central States Flower and Garden Show on April 5, Chi. Stadium

With the sunshine bringing a sheen of green to the lawns, lilac buds swelling and Spring scheduled to start officially tomorrow, thoughts of Illinois thousands of garden lovers are turning toward their flowers and lawns, but the busiest of this group are the members of the 92 garden clubs who are completing their preparations for the Central States Garden and Flower Show, which opens on April 5th at the Chicago Stadium, under the auspices of the Garden Club of Illinois.

Not to be outdone by the Chicago park gardens, those of the big commercial growers, horticultural societies, estate owners and others which will occupy the 40,000 feet of the Stadium's main floor, the garden clubs will be represented by an array of beautiful and artistic displays in the many competitive classes open to them.

These will be displayed on the terraces which are being built entirely around and overlooking the floor of the Stadium and which will afford ample room both for the exhibits and for the spectators, as well as a magnificent view of the panorama of full size gardens below.

The miniature models of a house and garden, showing what can be done with the grounds of a small suburban home, will be displayed by many garden clubs and great ingenuity, a sound knowledge of landscaping and utilization of space is apparent in the models already completed. This class will develop keen competition and visitors to the show will gain valuable ideas for their own home gardens.

The "little garden" class also has brought out a large entry list, even more clubs desiring to compete than could be given space. These gardens will each occupy a space about eight by ten feet. Some will be formal and others informal. Many of them will include a water feature, flagstone and gravel paths, as well as rockeries, and all will be made beautiful by growing shrubs, blooming plants and vines.

Gardeners every year are showing more interest in gates and will study with interest the "gate" competition with more than thirty garden club entries. The gates will be full size and will be open, showing a pathway and planting beyond, the paths may be of stone, brick or gravel, the gates may be plain or ornamented with growing flowers or vines.

A "porch arrangement" competition is another full size class of interest. Some of the clubs are to show porches with a roof and others terraces with flag stone floors, flowers, plants and vines, porch boxes or pots and interesting chairs and furniture will make these exhibits an example of what porches can be. Miniature garden plots will be added to the charm of some of these arrangements.

The different classes of tables set for six will also be exhibited on the terraces and include the dinner table class tables set for a special occasion such as a birthday or holiday and the Sunday evening supper tables, the accessories for which, exclusive of silver, must not exceed \$15.00 in value. The dinner and special occasion tables will be set with some of the most beautiful crystal glass and china and the Sunday tables will offer examples of beauty with economy. The flower arrangements of the tables also will be exceptionally beautiful.

Sixty shadow box flower studies, each a copy of a picture, will be shown under two classes. Japanese arrangements and colored flower pictures.

In the junior garden section there will be exhibits of bird houses built by boys and girls under eighteen, conservation posters and miniature gardens of living plants.

Money prizes are being competed for in 171 classes open to private and commercial growers of flowers and a magnificent array of potted and cut blooms will be on exhibit.

The twenty full size gardens in the special open class are being constructed by commercial and private growers competing for the grand prize. Chicago parks, Forest Preserve and other large gardens also will be on the main floor of the Stadium, but will not be in competition with the exhibits of the three Park Boards or the Forest Preserve.

Although the Central States Garden and Flower Show will not be opened until April 5th, actual work of preparing the Stadium for it is already under way as the entire in-

terior of the huge building, where hockey and boxing hold sway during the winter months, must be practically rebuilt for the gardeners. The task of turning the balconies into a series of terraces being by itself a gigantic one, while the work of bringing in tons of earth and rock, hundreds of trees and thousands of flowering plants and shrubs, then assembling them in the many gardens, keeps hundreds of men busy for many days.

Recipes for Meat Dishes—Church Supper

Receipts for meat dishes to serve at the church supper must be such that they may be cooked without too much trouble; they must be reasonable in cost, and they must be attractive to the taste. Miss Inez S. Willson, home economics specialist, says that the following recipes meet all the requirements.

Meat Loaf (50)
8 pounds beef
4 pounds lean pork
4 pounds veal
1 quart bread crumbs
2 finely minced onions
Slices of salt pork
1 quart milk
3 eggs
4 tablespoons salt
1 teaspoon pepper

Have meat ground. Mix thoroughly with the other ingredients. Shape in loaves and lay slices of salt pork over the top. Bake for 15 minutes in a moderately hot oven (425 F.); then reduce the heat to very moderate (300 F.) and continue roasting for 1½ to 2 hours. The loaves will cut to better advantage if made in the ordinary size, although they may be longer and two or more of them baked in a dripping pan.

Hungarian Goulash (50)
24 pounds lamb
12 cups onions, cut small
8 cups drippings
Water
4 tablespoons salt
Paprika
12 lumps of sugar
Flour
6 quarts of potatoes, quartered

Have shoulder of lamb boned and cut into 1-inch pieces. Cook the onions slowly in the drippings for 15 minutes, then add the paprika. Put in the meat, salt and sugar and stew slowly until the gravy is well reduced. Brown the meat a little, sprinkle with a little flour and add some water; adding more now and then so that when the meat is done it will be covered with a rich brown sauce which is not thick. Add the potatoes and more water. Cook until the potatoes are done.

New England Dinner (100)
60 pounds corned beef
40 pounds cabbage
10 pounds turnips
10 pounds carrots
5 pounds parsnips
40 pounds potatoes

Wash corned beef well and place in a large kettle with 15 gallons of water. Bring to the boiling point, then simmer for 3 hours. Cut the cabbage into eighths. Peel the vegetables and cut in quarters. Add all except the potatoes. Add the potatoes 30 minutes before serving time. When done, season with a little pepper and serve.

Chop Suey Hash (60)
4 pounds fat bacon, chopped fine
1 gallon onions, chopped fine
10 pounds cooked beef, coarsely ground
10 pounds turnips cooked and chopped
3 cans corn
1 ounce Chili powder
1 gallon soup stock
2 cans tomatoes

Place the bacon in a large bake pan and put in the oven until well rendered; add onions and fry until half done; add other ingredients and bake for one hour.

Erie Couple Wed Fifty-seven Years

Erie, March 19—Mr. and Mrs. John Head, residents of Erie for a number of years, quietly observed their 57th wedding anniversary in their home here Sunday. The day was spent quietly owing to the ill health of Mrs. Head.

Mr. and Mrs. Head were married at Carter, Tenn., March 16, 1873. They resided in the south until 1900 when they moved to Illinois. Mr. and Mrs. Head are the parents of five children. They are William and Andrew of Union, Tenn.; Dave Head of Teeds Grove, Ia.; Mrs. Lawrence Garland of Harmon, Ill.; and Mrs. Franz Wolever of Erie. One son, Henry, died of illness contracted during service in the World War. Dave also was in the war. There are twenty-two grandchildren and seven great-grandchildren.

Mr. and Mrs. Head have farmed most of their lives, but recently on a small scale. Mr. Head is active for his age. Mrs. Wolever, the youngest daughter, assists in the care of her mother.

HIGH SCHOOL GLEE CLUBS WILL PRESENT OPERETTA TWO NIGHTS

On Friday and Saturday evenings at 8:15 in the South Side high school auditorium, the Glee Clubs of the high school, under the supervision and direction of the supervisor of music, Miss Marion Lawson, will present to the public, the operetta, "The Bells of Capistrano." The operetta is replete with tuneful melodies and entertaining situations and will provide a happy evening of amusement. The program is printed below:

ARGUMENT

The Ortego ranch is under a dark cloud. Drought and mysterious disappearance of cattle have left Ramon, its present owner, with out one herd to pay off the mortgages held by Jake Kraft. Noneeta, an Indian girl, is a maid in the Ortego household, and is loved by Lone Eagle, a young chief. Medicine Man Pose calls upon his gods to restore the tribe's lost lands, and tells of a curse on the ranch and Capistrano Mission because of wrongs done to the Indians—a curse lifted only when the bells of the Mission shall ring again. Kraft urges Pose to "rustle" the last of the Ortego cattle. Noneeta overhears, and begs Lone Eagle to save the ranch. Jealous of Ramon, he first refuses, but finally promises to bring back the herd on the night of the full moon. Noneeta realizes too late that she has sentenced him to death by making him a traitor to his tribe.

Prof. Anderson, his sister Laura and students arrive at the ranch. Three of the boys fall in love with the Ortego sisters. Marian, a college friend of the latter, arrives with her father, James Alden, who has been sent to restore the Mission. Word comes that the great herd has been stolen. Noneeta tells Marian of Lone Eagle's promise and sacrifice, and explains that if the Mission bells were to ring on the night of the full moon, the Indians would believe the curse lifted, the cattle would be restored, and Lone Eagle saved. Marian discovers an old painting which discloses a secret map of a mine of great richness. The mortgage threatens to make this discovery useless, and the sullen Indians prevent access to the Mission. Noneeta eludes them as the ranchers despair, and causes the old bells to break their long silence as the full moon rises. Lone Eagle drives in the herd, and the Indians are reconciled with Ramon, who promises restoration of their lands.

Same as Act 1, Scene 1. Late afternoon and evening.

June 5 to 14 is likely to be a quiet affair.

Under federation rules a woman who has served only one term of two years is eligible to re-election. Four of the principal officers are thus candidates again, leaving only the office of treasurer to be filled. Home states of the four have unanimously endorsed their re-election.

Cards have been issued by the Maryland federation presenting the name of Mrs. John F. Sippel, the present president, Massachusetts

favors Mrs. Grace Morrison Poole again as vice president; Oklahoma endorses Mrs. Eugene Lawson once more as second vice president and the Iowa Federation presents again Mrs. Henry C. Taylor for recording secretary.

Mrs. Edward Hammet of Wisconsin is the only candidate thus far announced for treasurer.

WOULD LIFT IMMUNITY

Washington, March 19—(AP)—A bill to strip foreign diplomats of their immunity under American law was introduced today by Senator McKellar, Democrat, Tennessee, while police officials were investi-

gating the first instance of injury to a Washingtonian by a diplomat-driven automobile. The McKellar proposal would apply specifically to traffic laws, providing that no one should be immune

because of connection with a foreign diplomatic mission. The case now under investigation is one of several which are recorded in police files. No prosecution now is possible in such cases.

New York, March 20.—(UP)—Jack Johnson and Tommy Burns, former world heavyweight champions, have agreed to box a three round exhibition at a charity boxing show in Manhattan Casino, March 24.

Johnson defeated Burns in 14 rounds at Sydney, Australia, when the two fought for the championship on Christmas Day, 1906.

New York.—The National Hockey League play-offs, the "world series" of the ice game, opens tonight with the Boston Bruins and Montreal Maroons clashing at Montreal and the New York Rangers playing Ottawa at Ottawa. The opening game of the second place series between the Chicago Blackhawks and Montreal Canadiens will be played at Chicago Sunday night.

Three Sentenced

Chicago, March 19—(UP)—Three
men, convicted of conspiracy to
violate the registration laws in con-
nection with a medical diploma mill,
were sentenced today by Judge John
J. Sullivan.
The three sentenced were: Harry
Goldstein, Springfield, five months
in the Cook county jail; Dr. Robert
Lentine, St. Louis, two months in
jail and Jacob Crane, Springfield,
printer, three months. Sentence was
deferred until March 26 so the three
may arrange their business affairs.
W. H. H. Miller, former head of
the Illinois Dept. of Education and
Registration, who also was convicted
in the diploma mill case, was
sentenced to seven months in jail
and assessed a \$2,000 fine, has ap-
pealed. He is seeking the Republi-
can candidacy for Congressman-
Large at the primary April 8.

STEPS that led to the introduction of New ISO-VIS Motor Oil

A GROUP OF MEN were gathered in the re-
search laboratory of Standard Oil Com-
pany (Indiana).

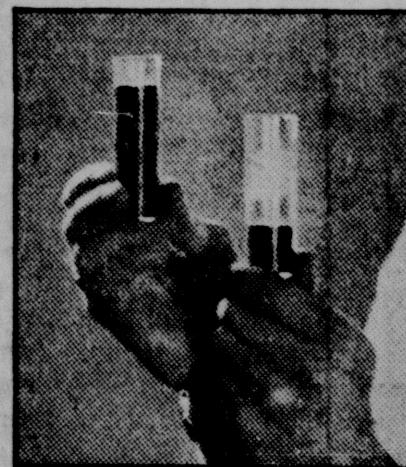

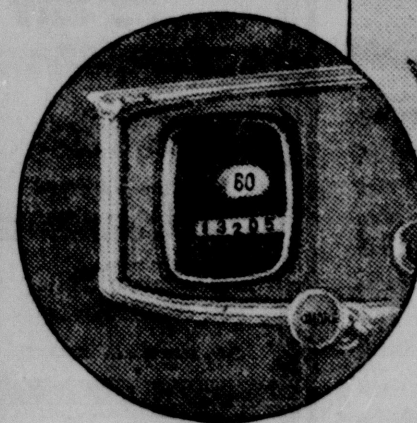

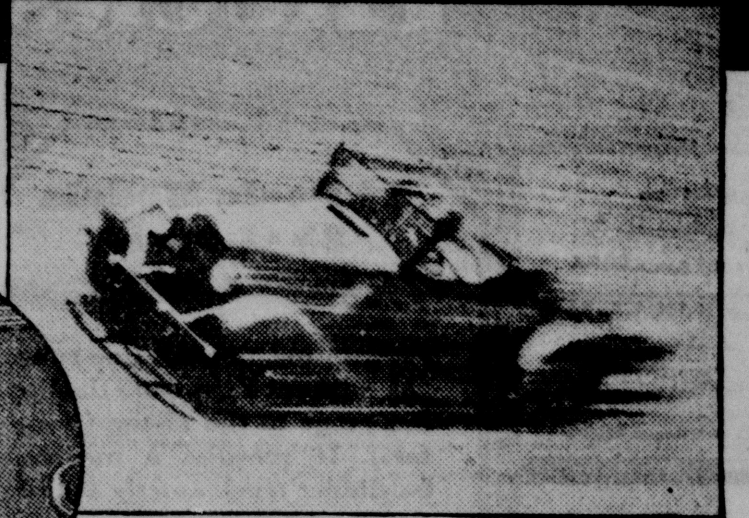

Before them stood a motor. It had been driven
25,000 miles—the "turn-in" period of the average
car. Bit by bit it was taken down. Micrometer
measurements were made. In the 25,000 miles of
driving it was found that wear on every moving
part was far less than normally occurs.

They had witnessed one of the final steps in the
perfecting of an oil that should add thousands of
miles to the life of the average engine.

Literally hundreds of these tests were made be-
fore we announced New Iso-Vis Motor Oil. Scores
of cars of various makes were used. Here are the
results:

- 1 Less than normal wear on every part of the motor.
- 2 Less carbon deposits (almost 50 percent less than the average of various oils).
- 3 Effective lubrication at extremes of heat and cold.
- 4 Absolute proof that New Iso-Vis will not thin out in the crankcase.

This last feature alone makes New Iso-Vis one of
the most important advances yet made in motor
oil. The body of New Iso-Vis does not change
from the moment you put it in your car till you
drain it off. You can get New Iso-Vis Motor Oil at
all Standard Oil dealers and service stations. The
better care you take of your car the more you will
come to insist upon this new type of oil.

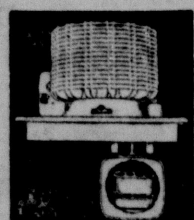

NEW Iso-Vis forms decidedly
less carbon than most oils.
This is not a mere claim—
thorough tests prove it. New
Iso-Vis saves time, trouble and
money in carbon removal.

HIGH SPEED—all speeds—a steady grind over all sorts of
roads in all kinds of weather. New Iso-Vis "stood the
gaff"—came thru this gruelling road test with flying colors.
The engine parts—by careful micrometer measurement—
showed much less than usual wear. The test furnished con-
clusive proof that New Iso-Vis lubricates more efficiently
and increases the life of the car.

TAX SYSTEM OF STATE "UNJUST" GOVERNOR SAYS

Gov. Emmerson Speaker at Meeting Of Farm Utility Heads

Springfield, Ill., March 20.—(UP)—The present Illinois tax system was called an "unjust" burden on the farmer and amendment of it to distribute more equally the share each person must pay to support the cost of maintaining local and state governments, was urged in a speech before utility and farm leaders by Governor L. L. Emmerson here today.

"Business cannot prosper when every hand is against the farmer, and the farmer cannot sell his products when employment walks the streets of the cities," said Emmerson. "Capital cannot find markets when labor is not paid and labor cannot find work when capital is not employed." Emmerson's topic was "The Future of Illinois" before a joint conference of farm leaders and utility experts, held for the purpose of discussing the extension of utility service into rural areas.

In addition to Emmerson, the assembly heard speeches by President C. C. Smith of the Illinois Agricultural Association; Lee J. Quasey, the association's utility expert, and Bernard J. Mullane, Chicago, president of the American Gas Association.

Glimpse of Future

Emmerson's speech was a recital of the state's accomplishments to date and a glimpse as what the future holds.

"The sooner there is full realization of the interdependence of the farm and factory, the quicker Illinois will attain its destined position as the greatest state in the union," Emmerson said.

"I hope that out of this conference there will come suggestions for a program which will give to the farmer the advantages which electricity has brought to the city," he said. "This is not too much to expect of a state, which in less than a century, has grown from wilderness where hardy pioneers fought for existence with savages and wild animals, to a position of leadership in the greatest nation of the world."

"But I do not want you to get the impression that there are no difficulties or obstacles in our path," he continued. "There are many, but in particular demands immediate attention."

"The state is operating today with a tax system that is hopelessly out of date. Our revenue structure is an anachronism as would be a team of oxen in these days of rapid transportation."

"The uniform rule is the basis of

Illinois' taxing system. Theoretically it should operate so that each person's taxes would be in proportion to the value of his property. Practically, it does not because it is extremely difficult under the present system to find the tax intangibles.

"Furthermore, the uniform rule assumes that all property, regardless of kind and earning power, is equally able to pay taxes according to its fair cash value."

Amendment Needed

"As I view the situation, Illinois' present tax problems are constitutional and administrative. A solution of the first would not affect the second. With a constitutional amendment however, it would enable the state to impose, as near as possible, the proper share of the cost of government upon intangibles, a part of our tax troubles would be solved. Then we could turn to solutions of the administrative problems."

"Without question, our assessment machinery should be reorganized and modernized. In its present form, it is too decentralized and cumbersome for us to expect fair and equitable assessments."

"Because it is cumbersome, because authority and responsibility are so divided, are two of the reasons why the farms of our state, the homes and business property are paying an unjust share of the expense of government."

"A special commission created by the last General Assembly is making a study of this problem and I hope that very soon some step may be taken toward a solution. I shall lend any honest effort in this direction the enthusiastic support of my administration. It is the most important question before the people of Illinois today."

RAID SUBLETTE STORE

Deputy Sheriff Fred Richardson and other officers from the sheriff's office conducted a raid upon the Joe Arrigo store in Sublette late yesterday afternoon. Arrigo, who formerly resided in Dixon, appeared before Judge Leach in the County Court this morning and pled guilty to a charge of selling and possessing intoxicating liquor. He was assessed a fine of \$250 and the costs on the sale count and placed on parole for a period of one year on the recommendation of State's Attorney Mark C. Keller on the count charging possession. Arrigo is said to have sold a pint of liquor to one of Sheriff Miller's deputies recently, which resulted in the issuance of the search warrant out of Justice J. O. Shaw's court last yesterday afternoon.

SEIZE BRITISH SHIP

Seattle, Wash., Mar. 19.—(AP)—The S. S. Chief Capilano, one of the largest British freighters on the Pacific Ocean, was boarded and seized by Deputy United States Marshall A. B. McDonald in the Strait of Juan de Fuca today on an order growing out of the loss of the freighter Chief Maquilla, which was reported lost in the Aleutian Islands, December 1, 1928.

FURTHER PLANS TO AID WHEAT GROWER ANNOUNCED TODAY

Grain Corporation Plans Purchase, Erection Of Storage Bins

Chicago, March 20.—(UP)—With grain bins in Chicago elevators brim full, need for storage space throughout the wheat belt is "pressing" and will be met by purchase and erection of additional elevators through loans to co-operative associations, officials of the Farmers' National Grain Corporation announced today after a two-day executive committee meeting.

A survey of the nation's congested grain storage facilities revealed need for immediate relief, the officials said. They announced that loan schedules for all stockholders have been drawn up, including allotment of loans for grain merchandising.

Simultaneously with the Grain Corporation announcement came reports that secret meetings of big grain speculators with Farm Board representatives to adjust delivery of grain on future contracts had failed of results. This was taken to indicate possible shunting of large stores of wheat from points as distant as New Orleans, Buffalo and Portland into the already chock-full Chicago terminals.

Board In Deep Water

These developments coincided with the comment of a veteran Chicago grain trader, who served under Hoover's war-time grain administration program, that the Farm Board was "in deep water" because of announced plans tantamount to "cornering the grain market."

The trader declined to have his name made public.

That farmers have lost little while speculators have lost between \$90,000,000 and \$100,000,000 because of the drop of wheat quotations to present levels was the expressed belief of a former president of the Board of Trade.

Declaring that "the whole grain trade is in a state of alarm," the Farmers' National Grain Corporation statement outlined its loan schedule commitments for the

vast wheat lands from the central states to the Pacific northwest.

All commitments, it was said, will be drawn against by specific application of the borrowing co-operative and all applications will be considered solely upon their merits and the qualifications of the applicant, without discrimination between or among the stockholders of the corporation.

Board Supervision

The Federal Farm Board will maintain supervision of these leading powers as set forth in the agricultural marketing act, which not only authorized the Farm Board to make loans to co-operative marketing associations from a revolving fund, but also passed these lending powers on to the Farmers National Grain Corporation, so far as they relate to grain.

Several applications for loans, which include financing of physical facilities and for extension of co-operative membership, already have been received, the announcement of the officials said. Some have been granted while the others will be acted upon "as expeditiously as possible consistent with proper consideration."

These loans, marking an important step in the government's efforts to ease the struggle of the wheat growers, will be made by the corporation to its state and terminal and regional stockholders. The loans, the statement said, will enable co-operative associations to advance to their members upon delivery of a commodity a greater share of its market price than is practicable under the ordinary credit facilities.

UNDER ONE HEAD

Washington, March 19.—(AP)—The revised Williamson bill to create a new Veterans Administrator, under whom all governmental agencies dealing with War Veterans would be consolidated, was approved today by the House Expenditures committee.

The Pension and Veterans Bureau and the national homes for disabled volunteer soldiers would be merged under the new agency, under the bill, in line with President Hoover's recommendations for coordination of veterans activities.

TRIO OF SLAYER BANDITS GET 14 YEAR SENTENCE

Chicago Judge Angry Because Of Light Sentence Voted

Chicago, March 20.—(UP)—A sentence of 14 years for murder was added today to the one-year-to-life terms already hanging over three youths who were convicted of the slaying of Dr. George Thilo, late yesterday after a jury had deliberated four hours.

Piqued by the slight sentence, Judge John J. Sullivan promptly overruled the customary motions for a new trial and a stay of execution for the three youths, Lawrence Ogden of Hoopston, Ill., Allan Goldstein and Raymond Scott.

Mrs. Charlotte Thilo, widow of the doctor and the only eye witness to the holdup in December, 1928, wept when the verdict was returned.

"Maybe their punishment should be more," she said, "maybe it should have been more—I don't know. I hope I don't ever have any more cases in the Criminal Court."

Mrs. Thilo tried to get the murder charge to trial for several months before she was successful. Meanwhile, the three youths had been sentenced for the Thilo robbery and sent to Pontiac reformatory.

Dr. and Mrs. Thilo were held up on the night of December 28, 1928. The doctor was knocked down during the course of the holdup and died a few days later. The state contended his death was the result of a beating administered by the three holdup men. The defense contended Dr. Thilo died of pneumonia.

PUBLIC TO HEAR MOCK AIR WAR IN CALIFORNIA

Radio-Telephonic Apparatus Rigged Up to Report Maneuvers

Washington—(UP)—Millions of persons will be given the opportunity of listening in on the Army Air Corps' annual mock war when the flare bombs burst in the vicinity of San Francisco next month. The exercises are from April 1 to 26.

Army technicians have adapted radio-telephonic apparatus to communication between flying war craft in addition to communication between planes and the ground. Owners of average radios are expected by the Army to be able to pick-up orders issued to planes in the air and to hear the reports of pilots on the progress of hostilities.

On an occasion to be determined later the National and Columbia broadcasting companies will transmit the "Air Defense of San Francisco" over a country-wide chain of stations. Bombs weighing 1,000, 2,000 and 4,000 will be represented by flares of 300,000 candle power. Smoke screens, smoke curtains and phosphor bombs will add realism to the scenes of mock battle.

When army photographers fly into the night to photograph distant enemy positions they will carry with them flashlight which burst with the glare of 5,000,000 candle power and, for a moment, banish darkness.

The progress made in aircraft since the war proved the value of planes is illustrated in all types of craft to be assembled at Mather Field for the annual exercises. World War bombing planes managed 80 miles an hour and carried bombs so small that the average weight of those dropped during the war was only 100 pounds. The War Department says only 16 bombs of 1,000 pounds were used against the enemy. The Air Corps now uses single bombs as large as 4,000 pounds dropped from planes capable of 123 miles an hour. The Army's latest plane is the Pursuit-Beeing which makes 180 miles an hour compared to 130 during the war. Curtiss attack planes mount six machine guns and 10 small bombs but attain 140 miles an hour. Douglas observation craft can fly at 100 miles.

Shell Wrecked Plane

Hobart, Tasmania, March 19—(UP)—An 18 inch shell exploded under a seaplane which was flying high above Norfolk Bay during naval gunnery practice today.

Although the plane was 1,000 feet above the warships, the explosion of the great shell brought it down. The wireless operator, McGowan, was drowned and Lieut. Elliott and Flying Officer Grant, the other occupants of the plane were severely injured.

The explosion of the shell caused an extensive air pocket, causing the seaplane to go into a tail dive. It

hit the water with such force that it rebounded 40 feet after breaking in two.

McGowan's body was recovered. Boats from the warships rescued the injured men.

BANKRUPT PETITION FOR DISCHARGE

With Verification.

In the District Court of the United States for the Northern District of Illinois.

In the matter of Philip Groth, Jr., Bankrupt.

In Bankruptcy No. 1726.

To the Honorable Charles E. Woodward, Judge of the District Court of the United States for the Northern District of Illinois:

The petitioner of Philip Groth, Jr., respectfully represents:

That on the 25th day of March, 1929, a petition in bankruptcy was duly filed in this Court by petitioner praying that he be adjudged bankrupt under the Acts of Congress relating to bankruptcy, upon which said petitioner was duly adjudged bankrupt on the 25th day of March, 1929.

Schedules of all debts and assets duly verified, all in accordance with the Acts of Congress relating to bankruptcy and the rules and practice of this court; that petitioner has been duly examined concerning his acts, conduct and property and that such examination has been concluded; that your petitioner has duly surrendered all of his property and rights of property and has fully complied with all the requirements of the Acts of Congress relating to bankruptcy and the orders of the court; and Referee touching his bankruptcy; that petitioner has not been granted a discharge in bankruptcy within six years nor has your petitioner committed any of the acts or offenses specified in the subdivision of Section 14 of the Bankruptcy Act, as amended, constituting grounds for the refusal of a discharge.

Wherefore your petitioner prays that he may be and be by this Court to have a full discharge from all debts provable against his estate under the Acts of Congress relating to bankruptcy, except such debts as are excepted by law from such discharge.

Dated, March 17th, 1930.

PHILIP GROTH, JR., Petitioner.

United States of America, Northern District of Illinois, County of Lee.—ss.

Philip Groth, Jr., being duly sworn, deposes and says: that he is the Philip Groth, Jr., of Amboy, Illinois, the petitioner named in the foregoing petition; that he has read the same and knows the contents thereof; that the same is true to the knowledge of C. J. Beck, Jr., and those matters therein stated to be alleged upon information and belief and as to those matters he believes it to be true.

PHILIP GROTH, JR.,

Sworn to before me this 17th day of March, 1930.

No Proof In Record

Peoria, March 19.—(UP)—A search through county records here has failed to give any account of the baby which was left in a foundling home here in 1888 and which was alleged to have been the daughter of Gaby Deslys, French dancer who died ten years ago.

Mrs. Edna Stiles of Pasadena related that she was left at her home here, bearing a cut on her little finger. She hopes the scar left by this cut to prove her identity as the dancer's baby and share in Miss Desly's estate.

The county records do not note an occurrence of that nature, nor is there any trace of a Miltner family which is said to have adopted the baby. Several Miltner families lived here in 1885, the records show, but none appear to fit the family described by Mrs. Stiles.

FICTION by ANNE AUSTIN

AUTHOR OF "THE AVENGING PARROT" "THE BLACK PIGEON," ETC.

BEGIN HERE TODAY

DORIS MATTHEWS, lady's maid, is murdered Friday night in a summerhouse on the Berkeley estate, by a blow with a heavy perfume flask, presented to Mrs. GEORGE BERKELEY by SEYMOUR CROSBY. The body, rock-weighted and tied with CLO-RO-INDA BERKELEY's scarf, is taken from the lake Saturday morning by DETECTIVE DUNDEE, who summons CAPTAIN STRAWN. Under suspicion are: Mr. and Mrs. George Berkeley, who have quarreled late Friday night over Clorinda's engagement to Crosby, a close friend of the social secretary, Mrs. LAMBERT; CLIGI BERKELEY, who sprinkled everyone Friday night with perfume from murder flask, later placed in Mrs. Berkeley's bath-room by WICKED BUTLER, DICK BERKELEY, who, after having been missing turns up while his mother is accusing EUGENE ARNOLD, chauffeur, of having murdered both Doris and Dick out of jealousy. Dick admits he wanted to marry Doris, but that she repelled his attentions.

Mrs. Berkeley is forced to admit she slipped Doris while the maid was dressing her for dinner because Doris said she used too much perfume; admits also she instructed Doris to wait up for her, but says Doris was not there when she (Mrs. Berkeley) went up to bed at 11:40. Roused print of Doris's mouth on bathroom mirror proves girl was there and that a struggle took place.

Clorinda Berkeley admits seeing Doris last before 11:45 and Doris was not gone then; says Doris did not tell her she had appointed to meet Dick Berkeley; is finally forced to admit she did not go to bed but stole out of the house for a walk about grounds about 11. Strawn asks if she was alone on the walk.

NOW GO ON WITH THE STORY

CHAPTER XXI

"CERTAINLY I was alone!" Clorinda Berkeley answered emphatically.

Gigi's convulsive grip on Dundee's left hand loosened slightly.

"You didn't take advantage of the opportunity to enjoy a lover's stroll with your future husband, Mr. Seymour Crosby?" Strawn suggested.

"I have told you I was alone, but allow me to correct you. Mr. Crosby is not my future husband!"

"Whoops, dearie!" Gigi shouted gleefully. "I was betting you wouldn't go through with it."

"When was the engagement broken, Miss Clorinda?" Strawn asked suavely.

"This morning, when Mr. Crosby and I were walking together to the lake. I told him that since my father was violently opposed to the marriage it could not take place."

"And why is your father opposed to the marriage?"

"You must ask him," Clorinda retorted, and closed her eyes wearily.

"Do you want to marry Crosby?" Miss Clorinda?

The answer was in Clorinda's frostiest voice: "I fail to see how that concerns you or the case you are working on, Captain Strawn!"

"Darling, you are so haughty!" Gigi laughed hysterically.

"So you went walking alone, Miss Clorinda," Strawn resumed urbanely. "How long were you out?"

"Oh, I don't know!" Irritably. "An hour, possibly."

"Did you see anyone—anyone at all—on this walk?"

"No one!"

"You say you walked around the lake. Just when was that part of the trip made?" Strawn pressed her.

"That was the conclusion of my walk. I crossed to the lake from the south part of the grounds, walked east first and then circled the lake on my way to the house."

"And stopped to rest in the summerhouse?" Strawn pounced.

WETS AND MOISTS LEAD IN SECOND RETURNS OF POLL

Twenty States And D. C.
Have Returned Over
700,000 Votes

The vote for Repeal of the Prohibition Amendment continues to lead over that for Modification and also for Enforcement in the second week's returns of The Literary Digest's 20,000,000 ballot nationwide poll, as announced in tomorrow's issue of the magazine.

Of the total of 703,935 votes received and tabulated in the current tally, 287,885, or slightly over 40 percent, favor revoking the Eighteenth Amendment and the Volstead Law. 224,141 favor a modification of existing conditions by legalizing the sale of light wines and beers. The balance, 191,909 votes, are for "Strict Enforcement."

These second returns are from twenty States and the District of Columbia. Last week's returns showed a total tabulation of 291,588 votes from ten states.

Kansas, the home of the late Carrie Nation, is the only state at this time which shows the vote for enforcement leading over that for both modification and repeal.

Georgia, the first representative from the "solid south" to forward returns in this poll, is rather equally divided on the three questions upon which the "straw" balloting is being undertaken.

The tiny domain of the national capital, District of Columbia, which, however, has no official voice in elections, shows a vote for repeal outnumbering that for Enforcement by more than two to one, with a substantial intermediary following for modification.

Connecticut, which together with Rhode Island has not yet ratified the eighteenth amendment, votes for repeal over enforcement by over three to one. The Republican stronghold of Pennsylvania also shows a same three to one vote to rescind the prohibition laws.

The recognized "wet" states of New York, New Jersey, and Illinois register vigorous opposition to the dry enactment, while the vote so far from the "farm belt" of the Middle West shows a strong tendency for enforcement.

On the Pacific coast the earliest returns from this section show Washington and Oregon voting strongly dry though the combined modification and repeal vote is larger, while in California the vote for repeal and also that for modification is larger than the tally for enforcement.

The returns are yet very meager compared with the total vote that is anticipated before the final tabulations are obtainable. The Literary Digest states, "Next week may tell a different story."

"The drys are on their mettle," it reads. "Letters coming in to The Digest breathe the fervor with which they are playing their part in the poll, and dry newspaper editorials indicate the same strong attitude."

Besides the 20,000,000 ballot poll that is now fully under way, The Literary Digest announces that they will follow this immediately by a supplementary poll of nearly 1,000,000 ballots which will be sent to all the physicians, lawyers, clergymen, and school teachers in America, each class to be reported separately.

More interest in the Prohibition Poll is being evidenced than in any other "straw" plebiscite which the magazine has ever undertaken, it is stated.

"One extraordinary feature of the poll," the periodical notes editorially,

ARE MARTIN

"They seem to be widening' ever'thing but the straight an' narrow path. Even parlor stories get broader an' broader," remarked Lafe Eud, as he approached a detour sign. Remember how folks used to talk about how they'd live, what they'd do, if they wuz able?

"is the volume of letters it is bringing to us.

"It would seem that the poll has effected a nationwide release of pent-up feeling on all sides of the question—feeling that is too intense to be satisfied by the mere casting of a straw vote, but must declare itself with greater emphasis and in greater detail.

"These letters form a unique exhibit of what the American people are thinking on the most vexed question of the time.

"Some of them, especially the less emotional ones, are thoughtful and original presentations of the problem from one point of view or another. "From time to time we will give our readers an opportunity of assaying some mingled streaks of this piled-up ore of American opinion."

The second report of the poll from Saturday's Literary Digest is:

Until You've Seen the Sensation
of The Business Show

Buy no desk until you have seen *Skyscraper*, the new desk by Shaw-Walker. You'll marvel at the downright cleverness of it. You'll revel in the rich beauty of it. You'll be amazed at the original features of it. And you'll gladly pay the moderate price asked for it. Your people, too, will thank you for an easier and better day's work.

No wonder the *Skyscraper* Desk by Shaw-Walker was the sensation at the Business Show.

Every desk-interested person who saw it, whether office worker, executive, official, or professional man, admired the way in which it solves old-time desk problems.

It has a new kind of top—smooth and glove-like. No other desk can have it.

Each drawer is organized for the worker's special convenience. One drawer is your "waste basket." Another takes a flat-type interdepartmental telephone. Others hold trays for "In," "Out," and "Pending" mail. Others, special card files, visible indexes, pencils, pads, accessories, etc.

COLBY M. CHESTER, PRESIDENT OF THE GENERAL FOODS CORPORATION, SAYS:

THAT food regularly takes its toll of twenty-six per cent of our national income, estimated to be \$90,000,000,000, while the nearest approach to this in point of size is the textile industry, which absorbs approximately eleven per cent of the national income.

In an operation so vast, dealing in the most fundamental necessity of our existence, it was inevitable that mass production, having been tried and tested and universally accepted, should find its way into the food industry.

Meanwhile, another factor has come into being that has an important bearing on the situation—the acceptance which has been almost universally accorded package foods. They are sanitary, uniform, reasonable in price and put up in quantities most readily acceptable to the consumer's needs.

We are on the verge of another great forward step in the development of package foods—the quick freezing of perishable food products as developed by the Birdseye and other processes. IT WOULD SEEM THAT SCIENCE HAS AT LAST SOLVED THE GREAT WASTE THAT NOW IS TAKING PLACE IN THE PROCESSING AND DISTRIBUTION OF PERISHABLE FOODS AND THAT THE DAY IS NOT FAR DISTANT WHEN THE HOUSEWIFE MAY PURCHASE THEM IN NEAT, SANITARY PACKAGES, STAMPED BY A NATIONAL BRAND THAT WILL CARRY WITH IT THE COMPLETE CONFIDENCE OF THE CONSUMING PUBLIC.
